STATE ITEMS.

THE New Opera House at Meadville was formally opened last week.

A CONVENTION of the Good Templars of Western Pennsylvania met in Franklin, Venango, on the 19th.

PETER HERDIC, Rep., was elected Mayor of Williamsport, on the 12th, by 816 majority over Henry C. Parsons.

THE Meadville tailors have been on a strike for higher wages, but their differences with employers have been adjusted.

THE new court house at Franklin will be ready for the January court. The bell, weighing 2362 lbs., was furnished by Fulton & Co., Pittsburgh.

OIL has been struck three and a half miles from Meadville, at the Preston well, but whether the production will be in paying quantity has not yet been demonstrated.

AN unsuccessful attempt was recently made to rob the Wyoming National Bank, at Tunkhannock. The burglars not being supplied with the proper tools, were unable to force open the safe.

A little son of P. B. Weaver, of Punxsutawney, Jefferson county, a few days since got possession of an old pistol, kept in a bureau drawer, and discharged it, the contents passing into his stomach, causing death in a few hours.

THE excitement on local candidates in Lawrence county was so great in many of the townships that the vote on the county ticket was first counted, and the messengers brought that in without waiting for the result for Governor.

The vote for the Assembly in Luzerne county, where the Republicans gain two members, was:

McMahon, R.*9,132 | O'Neil, D. 8,765
Coray, R* 8,882 | Westler, D. 8,794
Wilson, D. 8,328 | Keeene, D.* 9,510

The Republican Candidate for County Treasurer was also elected by a majority of 1,492.

ON the 2nd, Charles Myers, of Orrstown, Franklin county, was seriously burned by the explosion of an oil lamp, caused by a candle being held in too close proximity to it while being filled. His wife, who was pouring the oil from a can into the lamp, strange to say, escaped unhurt.

CITIZENS of Girard, Fairview and Swantown are endeavoring to secure the extension of the Erie and Pittsburgh Railroad from some point south of Girard through those places to Erie, the Lake Shore Road over which the Erie & Pittsburgh now reaches Erie not passing within a mile of any of them.

AT the meeting of the Erie County Return Judges, on Friday of last week, the opinion was unanimously expressed, in the shape of a resolution, that "the law combining the election of State, county and township, works confusion, without any corresponding benefit, and therefore ought to be repealed at the next session of the Legislature."

MR. ALEXANDER MCBRIDE, seventy-five years of age, residing at Harlansburg, Lawrence county, recently met at the house of his son, Mr. Thomas McBride, in New Castle, his family of nine children. The reunion is considered remarkable from the fact that Mr. McBride never lost a child, and that all of his offspring met on this occasion.

THE Republican majority in Oil Creek township, Crawford county, was materially diminished and electors embarrassed by the theft of printed tickets. Similar inconvenience was experienced in Spartansburgh, in the same county, the person who had charge of the Republican tickets for that place forgetting to deliver them. In both instances it became necessary to send to Titusville for tickets.

THE arrest of Mr. Deiss, chief clerk of the Philadelphia Court of Common Pleas, proves to be quite as great an outrage as it appeared on the first showing. After Mr. D. had been under arrest, and locked in a cell, for a considerable time, Alderman Bill McMullin took bail in $1,000 for his appearance, the bond reading "on suspicion of tampering with the election papers in the Common Pleas." Judge Allison, to whose attention the case had been called, after hearing the statement of Mr. Deiss, and also that of the officer who had arrested him, said this high-handed outrage committed by police officers of the city, whose duty it was to defend the law and protect the rights of citizens, was not simply a wrong done to Mr. Deiss individually, but a wrong done to him when he was engaged in the performance of his duty as an officer of the Court. His Honor directed a warrant to be issued for the officer who made the arrest, (Lieut. Killskey) returnable forthwith, and held the officer to bail in the sum of $5,000 to answer.

Interesting Supreme Court Decisions—Commission Revoked—The Privateer Hornet will be Condemned—New Currency Being Issued.

(By Telegraph to the Pittsburgh Gazette.)

WASHINGTON, October 18, 1869.

PROCEEDINGS IN THE SUPREME COURT.

In the Supreme Court to-day the decision rendered by Justice Davis in the case number three of John H. McKee vs. United States, a claim for cotton and other property, captured at Alexandria, La., by the naval forces under command of Admiral Porter, engaged in the Red river expedition in the spring of 1864. The claimant was a citizen and resident of New Orleans, who traded beyond the lines under a permit of a Treasury agent, and by virtue of a license of the military authorities then in possession of the country. The cotton, &c., was purchased from McKee, a distant relative of the claimant, and an agent of the rebel Treasury Department for the purchase and sale of cotton. The decision below against the claimant is affirmed, the Court holding that under the acts of Congress in operation at the time of the seizure, any Treasury agent who issued a permit authorizing a trade with the enemy beyond the military lines, did so without warrant of law, and the permit was void. That the duty of the military was wholly confined to the protection of persons trading under legal authority obtained from the proper department of the Government, and a license or permit obtained from that source to do anything unlawful conferred no authority whatever. It was also held that the whole transaction was void, and the claimant had never laid any title to the property in question, because it had been purchased for an agent of the rebel Government. The appeal came from the Circuit Court for Southern District of Illinois.

No. 155th: The Mayor and Council of the City of Memphis and Memphis Gayoza Gas Co. vs. Thompson Dean. This is an appeal from the decree of the Circuit Court for the District of West Tennessee. Dean, who is a citizen of the State of New York, filed his bill in the Court to restrain the City of Memphis from subscribing to the capital stock of the Memphis Gayoza Gas Company, and enjoin the latter Company from manufacturing or selling gas in the City of Memphis. He alleged that the Memphis Gas Company, of which he was a large stockholder, had neglected and refused to protect its corporators by instituting the proper legal proceedings, and claimed the right to sue in the name of the Company for his own protection, and the protection of the general interest. The bill alleged that the city of Memphis had contracted with the complainant's Company to supply exclusively the corporation with gas for twenty years, and had for a consideration granted the exclusive use of the streets for the purpose of laying pipe &c. That in the face of this contract it had, by a resolution, proposed to submit to the corporate vote the question of subscribing for $250,000 of the capital stock of the Gayoza Co., a rival company, whose successful operation would greatly reduce the value of the complainant's interest. The Court below rendered a decree in favor of the complainant's, granting an injunction to the full extent prayed for. Justice Nelson delivered the opinion. The decree of the Circuit Court is reversed, the Court holding: *First*—That under the rules of the Memphis Gas Company, which bound the complainant the same as other corporate bodies, the complainant was estopped from sueing in the name of the Company, and he therefore had no standing in the Court on his merits. It is held that there is nothing in the contract between the city of Memphis and complainant's Company that in the least violates, by the subscription to the stock of the Gayozo Company; that all the complainant's Company can claim of the city is, that the city shall use the gas of that Company for the term of years and price agreed upon; that the laying of pipes in the street by the Company and manufacture and sale of gas by the new company to the people of the city is not a violation of the contract, and cannot be restrained. The case was remanded, with directions to dismiss the bill.

No. 21, original. The State of Texas vs. G. Peabody & Co. *et al.* Hon. G. Passal of Texas, to-day obtained leave to file a bill in this case which seeks to recover about three hundred thousand dollars in bonds and monies received for certain other bonds of the United States, the property of the State of Texas, obtained from the rebel authorities in the State of Texas at the outbreak of the war by White, Chiles *et al.*, and by them passed to Peabody & Co. These are the bonds involved in the case of Texas vs. White, Chiles *et al.*, decided in favor of the State at the last term of the court. The bill charges that Geo. Peabody & Co., and the other respondents purchased these bonds knowing that they had been disposed of by the rebel authorities of Texas for supplies during the war; that they were unindorsed by any Governor of Texas, and that they were in direct violation of the laws of the State. It is farther charged that half of these bonds were sent by Geo. Peabody & Co. to New York and were redeemed there by the United States Treasury, and paid for in gold, said Peabody & Co. concealing the above facts.

THE HORNET WILL BE CONDEMNED.

A gentleman who arrived here tonight direct from Wilmington, says the United States Commissioner, Collector of the Post, and prosecuting attorney, have no doubt the Hornet will be condemned and dismantled. When the Hornet was captured she had on board [illegible] tons of ballast coal. This was removed by order of the Collector and the connecting links of the engine severed. Capt. Higgins put into port solely under distress. The steamer Frolic, which was sent from New York, was under orders to prevent the cruise of the Hornet at all hazards, even to the seizing of her. The Frolic, now at Wilmington, will remain to render any assistance necessary until the case is fully decided. The revenue cutter McCullough is also at Wilmington. It is not supposed that Captain Higgins will be held for trial, as he assumed command on the high seas and after the Hornet had had received her armament and ammunition; but that the paymaster will be the only one tried for the treason. He was recognized by the officers of the party who captured him, as having been engaged in carrying arms out of a Northern port. The officers and crew of the Hornet are represented to be of good good fighting material, and capable of making a bold demonstration should the opportunity be offered.

NEW CURRENCY.

The backs of the one and ten dollar new currency will be received from New York to-morrow, and the printing will be completed here, and the notes will be issued in the course of ten days. The new two's will be issued to-morrow.

COMMISSION REVOKED.

The Commission of Noah S. Mowe, recently appointed Internal Revenue Collector of the 7th District of Kentucky, has been revoked, and Mr. Kelley reappointed.

Chicago Briefs.

(By Telegraph to the Pittsburgh Gazette.)

CHICAGO, October 18.—The Attorney General of this State has given his opinion that the title to the land which has been donated by citizens of Carbondale for the Southern Normal University is defective and insufficient. This will reopen the question of the location of that Institution.

F. Lawson was instantly killed this morning by the falling of a large mass of rock from the roof of the Taylor coal shaft in Lasalle, Ill. Otto Olsen Ritzen was also severely injured at the same time. The mass of rock was so heavy that it required the united strength of fifteen men to remove it from the dead body of Lawson.

The one hundred and forty-five thousand dollars worth of securities stolen from the banking house of Collins, Ullman & Co., a few weeks since, have all been recovered through the detective force employed.

The following Insurance Cos. outside of Chicago are loosers by the destructive fire on Canal street yesterday: Reaper, City of Rockford, $2,100; Winneshuck, Freeport, $2,100; Etna, Hartford $2,100; Illinois Mutual, $2,100; Monumental, Baltimore, $2,100; Franklin, New York, $2,100; Western, Iowa, $2,100; Teutonia, Ohio, $2,100; Security, N. Y., $1,500; Hamilton Co., Ohio, $1,500; Peoples, Ohio, $1,575; Roger Williams, R. I., $1,500; Southwestern, Cairo, $1,500; North American' Hartford, $1,500. The whole loss will approximate $60,000.

NEW YORK CITY.

(By Telegraph to the Pittsburgh Gazette.)

NEW YORK, October 18, 1869.

A formidable strike of the mechanics employed in the shops of the Erie Railway is in progress. Not less than 600 men have refused to work, 400 at Susquehanna and 200 at the Jersey City. It is alleged that the scarcity of currency has prevented the prompt payment of the men, and that the Company have been compelled to pay as high as ten per cent. for it. The pay rolls are said also to have been delayed by the freshets and breaks in the road. But it is claimed that all the hands were paid on the 15th, except those at Port Jervis, numbering 110, and they were to have been paid Saturday, but struck on Friday, and were on the following day paid and dismissed. The Susquehanna hands struck in consequence thereof on Saturday, and those at Jersey City to-day, and have been paid and discharged. It is supposed those at Buffalo, some 200 more, are also on a strike. The officers of the road say the strike will occasion no interruption to the business of the road, as applications are numerous, that they will have no difficulty in filling the places of the strikers with new men. It appears that the Erie Company some months ago, inaugurated a system of consolidation of machine shops, and that those at Patterson and Piermont have been closed, and that the Port Jarvis shop will be closed soon. The object is a reduction of expenses.

Father Hyacinth arrived to-day on the Periere, and proceeded very quietly to the house of a friend. Report says he will be waited upon by a deputation from the various denominational societies, and requested to explain his views of Roman Catholicism before their congregations.

The Society for the Prevention of Cruelty to Animals has suspended interference with pigeon shooting matches in deference to the opinion of a large portion of the press and public.

The passage of the steamship Periere, from Brest, is stated to be the quickest western voyage on record—eight days and sixteen hours.

The steamer Holsatia, from Hamburg, arrived to-night.

Father Hyacinthe is at Fifth Avenue Hotel, where he will, it is said, remain in seclusion for ten days, and will then visit Boston and Washington. At the expiration of his visit to this country he will proceed to Rome to seek admission to the Ecumenical Council. He brought letters of introduction to Gen. Dix and Rev. Henry Ward Beecher, and is a personal friend of the poet Longfellow, and other distinguished gentlemen in this country. He does not speak the English language. Fernando Wood was a fellow passenger, and extended many attentions to him during the voyage, which was very agreeable and pleasant.

London "Times" on General Prim—Capture of Valencia—Loss of Life Trifling—Meeting of the Corps Legislatiff—"Reason for this New Wrong"—Pall Mall "Gazette" on Affairs in Spain—Better Days Dawning on Mexico—Markets and Miscellany.

(By Telegraph to the Pittsburgh Gazette.)

SPAIN.

MADRID, October 18.—The loss of life in the fighting which preceded the capture of Valencia was trifling. Of the National troops only two were killed and seven wounded. The losses of the insurgents are unknown. It has been ascertained that no tax-payer or householder of Valencia took part in the revolt. In many streets where barricades were erected or resistance offered to the advance of the troops, the walls are marked: "Here stood Valencia." The final attack would have been made early in the week had the troops not been obliged to wait for ammunition. The capture of Valencia has had a tranquilizing effect all over the country. Official reports state that only a few of the remnants of dispersed bands are now roaming through the provinces.

LONDON, October 18.—The *Times* has an article on General Prim. The writer admits that Prim is not a man of trancendent genius, but has depth, coolness and boundless ambition. He has the army in his hands, and intends to keep it as long as Spain is without a King. None can wrest form him the sword, which is the real sceptre of Spain. Prim sees this, and resolves that no King shall preside over Spain but the one of his own making, or under his influence; and above all no Montpensier, whom he had always opposed. It is not easy or hardly desirable to break through the arrangement which places in Prim's hands the virtual Sovereignty. If Prim is disposed to make good use of his victory, let him introduce not improvident clemency or inordinate liberty, but true order based on legality.

LONDON, October 18.—The Pall Mall *Gazette* thinks the formation of a republic in Spain would be a step in the right direction; but adds that Spain has a long journey to make before she can become well instructed, civilized and prosperous.

FRANCE.

PARIS, October 18.—A council of Ministers met this morning at Compeigne, the Emperor presiding, and held two sessions to-day. M. Drouyn De L'Huys has gone to Compeigne to supply the place of Prince La Tour D'Auverge, Minister of Foreign Affairs, whose continued illness prevents his attendance.

The opposition Deputies to the Corps Legislatiff held a meeting to-day, at which they drew up and signed a manifesto. They declare they will not go to the Legislative Chamber on the 26th inst. as has been proposed, because they do not wish to provoke a demonstration and imperil returning liberty. A pacific revolution, the result of which is plainly becoming clearer, having commenced they must not become the instrument of or furnish a pretext for disorder. The members of the opposition will await the meeting of the Corps Legislatif on the day to which it has been postponed by the Government, when they will demand to know the reason for this new wrong, and will steadily pursue the work of urging the democratic and radical demands of the country.

HAVANA.

HAVANA, Oct. 18.—Three steamers reached Cuba within forty-eight hours, all bringing reinforcements for the Spanish army. A steam transport, direct from Cadiz, touched Cienfuegos yesterday and landed 1,000 men. Another steamer arrived here this morning full of troops.

Virginia Legislature—Congratulatory Resolutions—Senatorial Nominations.

(By Telegraph to the Pittsburgh Gazette.)

RICHMOND, VA., October 18.—The Legislature met to-day. In both Houses a resolution was offered congratulating the country upon the recent Republican victories at the North. In the Senate it was laid on the table, as being out of the province of the present Legislature, and the House adjourned without action.

The caucus of the Walker members of the Legislature closed after midnight, having nominated for U. S. Senators John F. Lewis, of Rockingham, and John W. Johnston, of Washington county. Mr. Lewis is a native of Rockingham, fifty years of age, and was a member of the Secession Convention. He voted against and refused to sign the ordinance of secession, and was a Union man through the war, and was the candidate of the Walker party for Lieutenant Governor. He led his ticket by over 2,000 votes. John W. Johnston is a native of Virginia, a nephew of Joseph E. Johnston, and a lawyer by profession. He was a Union man through the war, and was appointed Judge of the Washington Circuit Court by General Canby. On the ballot on which Mr. Lewis was nominated the vote stood: Lewis, 57; Judge Edward Pendleton, 53. On the ballot on which Johnston was nominated the vote stood: Johnston, 60; Pendleton, 31; Robt. L. Owen, 10; Joseph Segar, 5.

The caucus of Wells Republican members to-night nominated for United States Senator L. H. Chandler, late United States District Attorney of Virginia, and Dr. Alexander Sharpe, at present Marshal of the District of Columbia. The caucus also appointed a committee to carry to Washington the protest recently adopted by the Republican members of the Legislature against the legality of that body.

PHILADELPHIA.

The Late Contested Election Cases—Writ of Certiorari Granted by Judge Sharswood—It will be Disregarded by a Majority of the Supreme Judges.

(By Telegraph to the Pittsburgh Gazette.)

PHILADELPHIA, October 18.—Charles Gibbons, by virtue of the decision in the contested election cases, has entered upon the duties of the office of District Attorney, *pro. tem.*, until the decision of the Supreme Court on a writ of *certiorari*. This writ is reported to have been issued by Judge Sharswood previous to his departure for Pittsburgh Saturday morning, many hours before the decision in the case was pronounced in the Court of Common Pleas, and it will, therefore, be disregarded by the majority of the Supreme Court Judges.

Cincinnati Brief Telegrams.

(By Telegraph to the Pittsburgh Gazette.)

CINCINNATI, October 18.—Hon. J. C. Buchanan, of Baltimore, on his way from Louisville to Cincinnati, Saturday night, on the packet Gen. Lytle, was robbed of a gold watch and chain, valued as a keepsake.

The National Convention M. E. Local Preachers to-day passed the following resolutions:

Resolved, That whenever from any cause, except old age or protracted sickness, any local preacher ceases to be an Evangelist his license and parchment should be taken away.

Resolved, That if it prove necessary to carry into execution the sentiments of the foregoing resolution, we respectfully ask such a change of the discipline as will enforce the active labors of local preachers, or withhold their licences.

Resolved, That we will use our influence and example to discountenance the reading of manuscript sermons.

Henry Ziegenstein was found dead in his bed yesterday morning from heart disease.

MEXICO.

(By Telegraph to the Pittsburgh Gazette.)

CITY OF MEXICO, October 12—via HAVANA, October 18.—Hon. William H. Seward arrived at Manzanillo on the 7th inst. He was received of[illegible] with salutes from the forts, a[illegible] by the Governor of Colima, [illegible] the name of President Juarez, wh[illegible] welcomed the distinguished visitor to Mexico. A number of the Cabinet have left the Capitol for Guadalajara to meet Ex-Secretary Seward and party. President Juarez has gone on a brief visit to Tamaulipas accompanied by General Corbeso.

In the National Congress measures are under consideration in regard to a making fund, and to provide for a reduction of the National debt.

Congress has refused to grant further railroad concessions save to parties who can prove their ability to comply with the terms of contract.

Rivas Palacio has been elected Governor of the State of Mexico.

Dias, the rebel chief under sentence of death, has been pardoned.

General Canto has been brought to the City of Mexico to be tried by court martial for the murder of General Pinto.

American flags were displayed at half mast in the city on the 6th, in honor of the memory of the late Secretary Rawlins.

Public and private enterprise is reviving. Unfinished aqueducts in various parts of the country are being completed, and new ones are in process of erection.

Public improvements in the capitol are urged forward with much activity.

There are now two thousand miles of telegraph lines in operation in the Republic, six railroads are in progress and 240 miles of railroad in active operation.

Louisville Items.

(By Telegraph to the Pittsburgh Gazette.)

LOUISVILLE, October 18.—William Coleman, a conductor on the Lebanon Branch Railroad, in passing from one car to another, lost his footing and fell between the two, one or more cars passing over him. When taken up life was extinct, and the body was horribly mutilated.

The Department of Kentucky of the G. A. R. met to-day for the purpose of organization and electing delegates to the National Encampment, to be held in New York on the 27th inst. Provisional Commander W. P. Wilcox delivered an eloquent address, in which the objects of the order were lucidly explained. They are to keep alive the friendship formed by the Union soldiers in their associations during the war, and to continue them through the battle of life; to take care of those disabled and meritorious comrades, and provide for the widows and educate the orphans of their deceased companions in arms; to cultivate sentiments of patriotism and loyalty to the Government their valor saved from the machinations of those who sought its overthrow, the motto of the order being Fraternity, Charity and Loyalty.

The Masonic Grand Lodge of Kentucky met in this city to-day. A large representation from the subordinate Lodges was in attendance, about three hundred and twenty-five delegates reporting. Grand Master Elisha S. Fitch's address was an exceedingly able and interesting one, full of good Masonic advice and counsel, and was listened to with great interest. The Grand Treasurer submitted his annual report which reports the finances of the Grand Lodge in a flourishing condition.

Tennessee—She Resolves to Pay her Debt, Principal and Interest—United States Senator.

(By Telegraph to the Pittsburgh Gazette.)

NASHVILLE, October 18.—In the Senate to-day the following preamble and resolutions were unanimously adopted:

Whereas, Past legislation, in the pledge of the public faith by the issue of bonds, has tended to shake the foundation of even public credit, and created in the minds of many distrust as to the ultimate payment of our public debt; and *whereas*, a people who, in all their history, have been scrupulous fidelity to their private obligations, commercially and otherwise, must consider justice to all public creditors as essential to the State's honor and dignity; therefore—

Resolved, That the people of Tennessee will never signalize their restoration to the control of public affairs by countenancing in any manner a disregard of their public obligations.

Resolved, That under strict retrenchment and rigid economy in all other respects, all the available revenues and resources of the State should be faithfully appropriated to the payment of the interest on our bonded debt, and the security of the principal at maturity, for which they are in honor bound.

The election of U. S. Senator takes place to-morrow. Johnson's chances continue the best, though his opponents say he can't be elected. They do not, however, name the man that can defeat him.

The New Capital Movement—Delegates to the Convention Arriving.

(By Telegraph to the Pittsburgh Gazette.)

ST. LOUIS, October 18.—There was quite a large meeting to-night of Committeemen and citizens to make the final arrangements for the National Capital Convention which is to meet here on Wednesday. The Convention will be called to order at two P. M. Wednesday, thus giving time for all delegates to arrive on the morning trains and participate in the organization.

Sixteen States and territories will be represented—by some of their best and most influential citizens. About twenty delegates have already arrived, who report that there is much interest felt in the movement in their respective States. Among those here are Gov. Knight, of Colorado; Gov. Pile, of New Mexico; Garrett Davis and Col. Churchill, of Ky.; and Messrs. Haldeman and Abell, of Kansas. On Wednesday night there will be a mass meeting in the Convention Hall, at which several distinguished guests will speak, among them Senator Yates, of Illinois, Garrett Davis, of Kentucky, Hon. Mr. Coburn, of Indiana, and Jas. S. Rollins, of Missouri. On Thursday the delegates will be driven around the city and suburbs, and on Friday there will be an excursion, including a view of the iron furnaces at Carondolet, and other points.

—The employees of the Erie Railroad shop in Buffalo, two hundred strong, struck for regular pay yesterday morning. At a meeting yesterday afternoon, resolutions were adopted stating their grievances, and determining to hold off till their object is accomplished and the employees at Port Jervis reinstated.

—At Buffalo, Sunday, the car shops of the Lake Shore Railroad were destroyed by fire, the origin of which is unknown. A large number of passenger, freight and caboose cars, and a large quantity of lumber, car materials and tools were consumed. The loss will be over three hundred thousand dollars, fully insured. Over one hundred and fifty workmen are thrown out of employment.

—The greatest Catholic procession ever witnessed in Montreal took place Sunday afternoon, the occasion being the translation of the relics of St. Se[illegible] from Bonsecour's Church to the Bishop's Palace. Over thirty thousand people joined in the procession. Fathers Martineau and Langcate addressed the crowd in English and French, explaining the ceremonies. The streets were decorated with flags, arches, &c.

—At New York, on Sunday, Rev. Dr. Hubbell preached upon the present Roman crusade against the public schools. He said "they demand the unconditional surrender of the present system of education. If we give up this, they will then ask the press to be delivered into their hands, and after that all the privileges that Americans possess under the Government; then one by one will thrift, happiness and virtue be among the things that were, and this land become one of misery and poverty similar to the nations where Papacy rules supreme. The issue must be met, or it may at some time culminate in one of the worst wars the world ever knew."

—A testimonial to Congress has been prepared by the citizens of Washington city, setting forth various grievances under which they labor owing to Congressional neglect of affairs of the District of Columbia. A number of public improvements, which properly are the work of the Government, they offer to complete if permission be granted them. They say the prosperity of their city is impeded by the uncertainty of its remaining the National Capital, and conclude by asking Congress if it should not see fit to grant redress for the several evils complained of, to place the District under the laws and government of the State of Maryland, or Massachusetts, or any other State that may be deemed proper.

—John Swanson, proprietor of an extensive cotton factory near Stockholm, Sweden, has just purchased 12,500 acres of land in Dunklin and Stoddard counties, in the State of Missouri, where he will establish a colony and build a factory, mills, etc., and carry on the cultivation and manufacture of cotton. Mr. Swanson has two hundred families in his employ and will bring them to his new plantation. Five hundred families are now *en route* to New York, and will reach Missouri within thirty days, and eight hundred more families will soon follow. The land is well adapted to cotton rising. Dunklin county will export this season from seven to eight thousand bales, and Stoddard county about five thousand bales.

The Origin of Words.

Words have a natural, and a derived or secondary, meaning; and often several meanings, each further from the natural than the preceding, until, finally, the true literal meaning of the word is entirely lost.

One of the most amusing and instructive recreations may be found in tracing words to their origin, and learning how they came to mean what they do. Of course there is scarcely any limit to the number of examples that might be given. But in order that the pursuit shall be permanently interesting, the reader must have some idea of a few fundamental principles of the language. No great amount of linguistic knowledge is necessary for this.

Nearly all the words have a natural meaning, derived from the meaning of the letters that compose it. Those few that have entirely lost their literal meaning may be treated as curiosities. Such are the following:

Meander—From the river Meander, in Phrygia, which is noted from its winding course.

Millinery—Articles so-called because first imported from Milan.

Mesmerism—From Mesmer, a German physician, who originated the theory of animal magnetism.

Tantalize—From Tantalus, a king of ancient Lydia, punished, according to Roman mythology, by perpetual hunger and thirst, though boughs laden with delicious fruit hung over his head, and he stood in water up to his chin. Both the fruit and water receded from his lips when he attempted to taste them.

Bayonet—From Bayonne, the name of the city where they were first made.

Academy—From Academus, a public grove where Plato taught. The grove is said to have been named after a man of that name, who gave it to the people of Athens as a place for gymnastic exercises.

Hurra—This word is said to have originated among the Eastern nations, where it was used as a war cry. They believed that every man who died in battle for his country went to Heaven. It is derived from the Selavonic word "Hurrah," which means "To Paradise."

Other words have a proper signification derived from some foreign language, as

Maxim—From the Latin word "maximum" signifying the "greatest." A maxim is something of the greatest importance—worth remembering.

Nail—(A measure.) The distance from the second joint of the finger to the end of the nail.

Nails—(Six penny, eight-penny, tenpenny, etc.) At Sheffield, England, where immense quantities of nails were made, it was formerly the custom to sell one hundred of one kind for fourpence, another for sixpence, etc.

Another class, like the last example, were recently expressive in our own language, but have become less so by change of custom:

Mold Board—The part of the plow which turns the mold of earth was formerly made of a board.

Ink horn, powder horn, shoeing horn, etc.—So-called from the fact that these articles were formerly made of horn.

Landscape—Land shape.

But the word News does not appear to come under any law of language. Some suppose this to be composed of the initial letters of North, East, West and South. We find the following lines in "Witt's Recreation," first published in 1640:

"When News doth come, if any would discuss
The Letter of the word, resolve it thus:
News is conveyed by letter, word or mouth,
And comes from North, East, West and South."

Too much zeal for the Emperor was recently exercised in France, by a school master, who was tried a short time ago for committing a fraud in the elections. He had taken out from the ballot box sixteen votes in favor of the opposition candidate, and substituted sixteen for the government candidate. In his defence, the schoolmaster stated that he had been ordered to do all he could for the government candidate, and thought he was acting legally in securing the election of the friend of the Emperor. The jury acquitted this zealous election officer on the ground of weakness of intellect.

LEAVENWORTH, KANSAS.

The Center of the Country—Should it be the Capital of the Land.

LEAVENWORTH CITY, Oct. 13.

MESSRS. EDITORS: Considered geographically, the city of Leavenworth has a curious and significant location; it is in the precise centre of the country. Let those who doubt it, "string the map," as it is called; run a line from any point on the Atlantic coast, say from the city of Portsmouth, in New Hampshire, across the continent to San Diego, on the Pacific; then running a line from the Lake of the Woods, in the British Possessions, due south to Galveston city, in Texas, and it will be found that the city of Leavenworth is exactly under the intersection of these two lines. Take a pair of compasses, place one of the dividers on the city of Leavenworth and the other upon San Francisco, and describe a circle running south, and this interesting fact will be developed. This circle will include within its circumference the whole of Mexico and the West Indies, and passing through Nova Scotia and New Brunswick, it will include very nearly the whole of British America. So that in the event of the absorption of British America, Mexico and the West Indies by our expanding empire, Leavenworth would still be the center of the nation.

This remarkable fact, together with its extraordinary railroad facilities, there being no less than twelve railroads radiating from Leavenworth, is dwelt on with confident emphasis by the advocates of the removal of the National Capital. The new republic demands the removal of the seat of government to some point more central than Washington, and midway between the two great national boundaries of the continent, the Atlantic and Pacific oceans, and the agitation of this important subject is already becoming deep and widespread.

The West and the Southwest are a unit upon this subject, and the national apportionment of 1870 will give them the power and the authority to move it. The people of the West treat the early removal of the Capital as a certainty, and they are already selecting a site.

While it is well known that St. Louis and Chicago have offered immense sums of money for the Capital, it may perhaps surprise many in the East to learn that although Leavenworth contains but 40,000 inhabitants, and is but a village compared with these great cities, its citizens are nevertheless able to offer twice the inducement in money, in addition to her unsurpassed physical advantages. The Government owns, on the northern edge of the city, six thousand five hundred acres of land, known as the "Government Reserve." Fort Leavenworth, the largest inland supply for on the continent, stands in the midst of this beautiful tract. Here there is none of the level monotony of plain that the eastern people usually associate with the "country, ees west;" the ground is rolling and undulating, with gently sloping hills and romantic valleys, and eminences that are commanding, and yet easy of access. This Reserve has been pronounced by travelers to be one of the loveliest spots in the whole country.

In addition to this, Leavenworth has to offer to the United States the unusual spectacle of a naturally fortified city, a city completely fortified by nature unassisted by art. The city is surrounded by a range of hills ten miles in extent, rising gradually from the plains, and forming an arc of which the Missouri River is the irregular and picturesque chord, and enclosing within its sweeping compass Leavenworth and the fort. These hills, or rather this continuous hill, is as regular in its outline and structure as if built by an army of engineers in the leisure of peace. From the East the hill rises gradually, but on the West the sides are precipitous and difficult to approach.

In the event of the Capital being located here, this immense tract would become of great value. For example, suppose fifteen hundred acres would be reserved for the public buildings, which would be more than ample, the balance, five thousand acres, could be laid out in lots and sold, say at the moderate valuation of one thousand dollars each. It has been estimated that this would net the Government the enormous sum of seventy-five millions of dollars, which would be sufficient to build its marble palaces in a style far surpassing the present, and leave a large surplus in the treasury to be applied to the liquidation of the public debt. There is no exaggeration or characteristic hyperbole about this. It is all true, every word of it.

The view from the top of this hill is one of surpassing loveliness. On the East we see a flourishing city, crouched down upon the banks of the winding Missouri, and on the north, rising from the thick groves of spreading oak and elms and walnut, are the buildings of Fort Leavenworth. But it is toward the setting sun that the scenery attains the very climax of picturesque beauty, where art and thrift have united with bounteous nature in producing a landscape effect unsurpassed, if not unequalled, in the West. It is upon this range of hills that the government could build the Boulevard of the world, and there is now a well traveled road way around its entire summit.

These are a few of the advantages that Leavenworth possesses over all its rivals in the strife for the Capital, and the people are fully impressed with the idea that it will eventually be located here. The Governor of the State has appointed a delegation of influential and eloquent men to attend the Convention that is to meet in St. Louis on the 20th inst. This delegation will go there fortified by arguments and statistics prepared and collected with great care. That Leavenworth should be the future Capital of the nation may be strange, but stranger things than this have happened in this nineteenth century of wonders. Perhaps Hamlet had a direct reference to this approaching event when he said to his fellow student:

"There are more things in heaven and earth,
Horatio,
Than are dreampt of in your philosophy."

SMALL POX prevails at Fort Wayne, Indiana.

AN IRISHWOMAN, on the 8th, presented two hundred dollars in bills of the old City Bank of Manchester, N. H., for redemption. The bank has been closed for two years. They were paid.

PROF. HOUGH, of Dudley Observatory, at Albany, predicts that before Tuesday there will be a fall of more than eight inches of rain, and that Hudson river and tributaries will attain even a greater height than in 1857.

THE National Association of the Local Preachers of the Methodist Episcopal Church of the United States met at Cincinnati on Saturday, and will be in session several days. The delegates will number above one hundred and fifty.

A CORONER'S JURY in London rendered the other day, in the case of a young woman who fell dead in the street, a verdict of "effusion of blood on the brain, caused by a fatty heart, accelerated by compression of the chest, produced by tight lacing."

AT an inquest relative to the fall of a building in Williamsburg, New York, by which several persons were killed, evidence was adduced that the superintendent of construction was in liquor frequently during the construction of the building.

EIGHT prisoners escaped from the Penitentiary at Moundsville, W. Va., on Sunday n[illegible] last, through a tunnel dug from their cells to a main sewer. Two hundred dollars reward, twenty five dollars for each, has been offered for their recapture.

AT Winthrop, Iowa, recently, a mob of citizens took a horse thief by the name of Vrooman, from a constable, dragged him out to a tree, put a rope around his neck, and would have hung him but for the interposition of four or five determined men.

THE Relief Committee refuse to extend aid to any of the sufferers by the recent boiler explosion at the Indiana State Fair, unless upon evidence that they (the sufferers) will not bring suit for damages against the firm having the boiler on exhibition.

THE iron on the St. Paul and Chicago railroad will be laid from St. Paul to Hastings by the 15th of December. It is intended to commence laying the track on the other end of the line on the 18th inst., and push the work forward to Hastings with the greatest possible speed.

IT is pretty well settled that the gold clique lost enormously during the late panic. Calculations have been made showing that Fisk & Co. will lose about $14,000,000, should the Court decide against them, with regard to the purchase of several brokers who have since failed.

THE boss masons of Brooklyn, who have consented to give $5 a day for eight hours' labor, complain that they are unable to compete with those bosses who are standing out against the Society, and who pay but $4 a day for ten hours, and have requested the Society men to reduce wages.

AT the fortnightly meeting of the New York Workingwoman's Association, last week, a letter from Hester Vaughn, now in England, was received, acknowledging the receipt of $100. As several hundred dollars are alleged to have been subscribed for this unfortunate woman, inquiry is made why the whole amount was not sent her.

WHILE Secretary Seward was stopping at Los Angelos, on his trip to the Pacific, the house in which he and his party lodged was entered by a burglar. In passing from the room of the venerable statesman into that occupied by Mr. and Mrs. F. W. Seward, the burglar awakened Mrs. Seward, who, unaided, drove him from the premises.

THE case of the firm in New York, who deceive the people by proposing to furnish them genuine imitation legal-tender notes, and send to the purchaser a lot of photographs of the United States currency, has been referred to Solicitor Bonfield, and if there is any authority to suppress the swindlers, Secretary Boutwell will promptly enforce it.

THE rumored duel between the ex-rebel guerrilla John S. Mosby and Col. Boyd, Sheriff of Fanquier county, Va., it appears did not come off. From the published correspondence we learn that Col. Boyd's offense consists in his having said that he could prove in Pennsylvania that Mosby was a highway robber. There would not be much difficulty encountered in proving the fact, we opine.

THE fifth annual convention of the French Canadians in the United States has just been held in Detroit. Among the resolutions adopted was this one: "We admit no alternative for the interests of our country and ourselves, but the annexation of Canada to the United States;" and they formally constituted themselves "a General Commission for the annexation of Canada to the States."

THE United States Commissioner at Dayton, Ohio, has discharged William Huffman and others, charged with conspiracy to defraud the government in the illicit sale of whisky, and dismissed the proceedings in the case, on the ground that the defendants were witnesses for the government in criminal prosecutions, and that the government would not permit its witnesses to be intimidated, nor prevented from testifying, by vexatious suits.

ACCORDING to a recent French patent, ornamental feathers may be bleached by immersion for three or four hours in a diluted lukewarm solution of bi-chromate of potash, to which a little nitric acid has been added. To remove the chrome oxide which settles upon the feathers, and imparts a greenish color, a diluted solution of suphuric acid may be used. The bi-chromate solution must not be too strong, and the nitric acid should be diluted until it ceases to evolve vapor or to be yellow.

CINCINNATIANS residing in the neighborhood of the Pest House, represent it as an insufferable nuisance, and are clamorous in demanding that certain improvements going forward shall be stopped. But the Board of Health regard the improvements as absolutely necessary in preparation for the already indicated increase of small-pox patients this fall and ensuing winter, and demur to the action of the Council stopping all work of a permanent character. And so the matter rests.

AT the residence of Mr. Va[illegible]edge, near Jones' Station, on the Cincinnati, Hamilton and Dayton Railroad, Tuesday evening of last week, a most singular and distressing accident occurred. A married daughter of Mr. V. was on a visit with her child of seventeen months. The child crying for something to eat, the nurse, a girl of fourteen, started to the cellar, carrying a butcher knife with which to cut a slice of bread. On the stairs she slipped and fell, and the knife flying from her hand, struck a stair and remaining for a moment with the point poised upward, the child fell upon it. The knife blade entered its heart, killing it instantly.

TUESDAY, OCT. 19, 1869.

A CHANGE—AND NO CHANGE.

The GAZETTE greets its readers this morning with the face which was so long familiar to them of old. After nineteen months of experience with the quarto, or eight-page, form of imprint, it resumes the broader folio pages which are found to accord more faithfully with the public taste.

Consulting our own convenience, merely, we should adhere to the form of impression which is now abandoned. But it would be ungrateful to those friends whose advertising favors press ever steadily upon our columns, to be longer insensible to their manifest desire for the change now made. While we are not wholly convinced that the quarto form is necessarily unfavorable to the display of their announcements, with the publicity which they have always the right to expect, we feel it to be due to their kindness that we should make a just allowance for their preferences, in a matter upon which they have so good a title to be heard. They have too long indulged our convenience to be denied a fair consideration for their peculiar interests.

By the present change, our readers also will profit, in an increased amount and variety of news and miscellaneous matter, editorial, and otherwise. We shall give to them hereafter about two columns more than before of general reading.

Always trusting that the GAZETTE may continue to be, as it has ever been, a favorite journal with the people, and proposing still to merit, according to our ability, that generous support which we gratefully acknowledge, and upon which this journal has prospered, we shall confidently rely upon the public—readers and advertisers alike—to accompany us in our efforts to make of the GAZETTE a newspaper fully meriting their sustained good will.

INDIANA and Nebraska elected county officers only on the 12th. Their Legislatures hold over.

NO COUNTY in Western Pennsylvania can show a brighter Republican record than comes to us from Indiana. Her majority of 1,933, upon a comparatively light vote, justifies the congratulations of the *Register* to its local readers.

THE CHINESE are no longer to be excluded as competent witnesses in the Courts of California. It has been judicially decided that the XIVth Article of the Constitution gives to them the right to testify. This will be found a long step in surmounting the local restrictions upon the civil status of the Asiatic immigrants to our Pacific Coast.

AS IF the Republican minority in Berks were not always large enough, there was seen last week a small clique of her politicians of the Lauman stripe sparing no effort to cut down the vote for Geary. They have accomplished just enough of mischief to display their motives, to measure their real influence, and to deprive them, for the future, of even the shadow of a claim upon Republican con[illegible]

THE Senatorial seat of Mr. Scull, from the Somerset district, will be contested by his late opponent Mr. Findlay. The first claims 21 majority, and the latter's election by 17 votes is insisted on by the opposition. No certificates were granted. The Democrats also claim the election to the House of McCormick, in Indiana and Westmoreland, and of McBride in Beaver and Washington. As there is a clear Republican majority in each branch of the Legislature, a fair hearing for these contests is ensured.

AMONG the results of the late elections, we have the final extinguishment of the financial heresies hitherto advocated by Mr. Pendleton and his friends in these States. On this point, the effect of the popular adjudication cannot be better stated than in the language of the Cincinnati *Enquirer* of the 11th inst., when it declared that "Mr. Pendleton's defeat would be death to the greenback policy, as it would make that to which he is opposed the settled and unalterable policy of the country." No more need be added!

BY such efforts as are noted in the annexed dispatch from Mauch Chunk, dated the 11th, the majority for Mr. Packer in his own county of Carbon was increased [illegible]42 votes. In his defeat the State has fortunate deliverance from New York [illegible]ering and special legislation. The [illegible] said:

> The Democrats are holding a Naturalization Court here this morning without [illegible]ing any notice, and they are bringing [illegible]m in by hundreds. Report is current [illegible]t R. H. Sayres, Superintendent of the [illegible]igh Valley Railroad Company, is going along the line urging their employes [illegible] drop politics and vote for Packer, as [illegible]r company need a great deal of legislation this winter, and if Packer is elected it can be accomplished.

[illegible] is said that the Virginia Legislature [illegible] elect U. S. Senators to-day. A large [illegible]ber of candidates are in the field, [illegible] the choice is to be confined to those [illegible] can take all the qualifying oaths. [illegible] Senatorial contest in Tennessee will close to-day. Ex-President Johnson [illegible]rently leads in public expectation, [illegible] encounters a formidable opposition and may be beaten. He is bitterly assailed in the old rebel interest, for his betrayal of the South in '61, as the originator of military trials, for his complicity in the "murder" of Mrs. Surratt, for his personal warfare upon Jefferson Davis, for his career of general usurpation, and for his co-operation with "the Yankee horde of puritanical preachers at the North, in sending regiments of penitentiary convicts (men who regard no laws, human or divine, to make infernal war upon a Christian people."

THE Altoona *Vindicator* is an outspoken Democratic journal. Its motto is evidently "Everything for principle: nothing for men." Henceforth it "repudiates the antediluvians whose heavy weight has dragged the Democracy to undeserved defeat. It turns its back upon "the cringing cowards who live in the sombre sepulchre of a dead past"—the "leaders who are fossils, not competent to occupy a front position [illegible] this progressive age." It styles the [illegible] of its party "for the last eight [illegible] a succession of frightful blun[illegible] demands that its leaders shall [illegible]e both "bravery and brains." [illegible] with the "corruption [illegible]nscrupulous political des[illegible] [illegible]ounded Judge Packer, [illegible]" with "the base [illegible]ted the Philadelphia [illegible]ered and then de[illegible] Are we right in [illegible]cratic journalist [illegible]nguage has been [illegible]ction of the ac[illegible]ns, Chairman, [illegible] closed? [illegible]log[illegible] which [illegible] false wit[illegible] had been fairly observed in the late campaign in this county, would have saved some men from very unpleasant reflections, now that the election is over. We have before us "The School Casket," for September, an educational paper published in this city by two very estimable gentlemen, who are clergymen, in which they urge every one to vote for Mr. DICKEY for Commissioner. Of this we do not complain; but it so happened that they urged it on the ground that Mr. BOSTWICK, the Republican nominee, was, and is, "a confirmed drunkard," and that he was "the candidate of the whisky ring," neither of which allegations happens to be true. Mr. MCGEE, the man whom the Dickey movement helped to elect, was the candidate of the whisky ring, and received its support; and Mr. BOSTWICK is not, and never was "a confirmed drunkard," nor a drunkard of any kind. On the contrary, he is a sober, well-behaved and very worthy man. The gentlemen who edit the *Casket* did not, of course, fall into this error knowingly. They doubtless believed what they said, and will naturally feel mortified to find out that they were in error. The fact that many voters may have been influenced to vote against Mr. BOSTWICK by the report which found embodiment in the words we have quoted from the *Casket*, should serve to give additional force to the proverb "Always be sure you are right" before you "go ahead."

THE ELECTIONS TO COME.

California elects two Supreme Judges on the 21st inst., West Virginia, a Legislature on the 28th, Illinois, a Constitutional Convention November 2d, Maryland, a Comptroller on the same day, Massachusetts, her State officers and Legislature November 1st, Minnesota, the same November 2d, New Jersey, a Legislature, New York a State ticket and Legislature and Wisconsin the same, all on the 2d, while Mississippi and Texas will close the electoral campaign of the year with their reconstruction on the 30th.

The canvass in West Virginia is interesting in view of the current movement to abrogate her restrictions upon the franchise. New Jersey may decide to recall her rejection of the XVth Article. An opposition triumph in New York has been generally anticipated, but the present indications do not look that way. It is quite within the probabilities that the Republicans may choose the State officers and secure both branches of the Legislature. They can do it if they will. The registration of votes just completed show a clear majority of 20,000 against the opposition. An united effort by our friends will easily add Governor HOFFMAN to the list of Democratic aspirants for higher civil honors whose hopes the sharp frosts of the present Autumn have forever blighted.

THE SUFFRAGE IN PENNSYLVANIA.

The adoption of the XVth Article into the Federal Constitution will be officially announced from the State Department at Washington, before the adjournment of the next Legislative Session at Harrisburg. That Article will read as follows:

> SEC. 1. The rights of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color or previous condition of servitude.
>
> SEC 2. The Congress shall have power to enforce this article by appropriate legislation.

Section I of Article III, in the Constitution of Pennsylvania, confines the right of suffrage in the Commonwealth to *white* freemen possessing certain other qualifications. The adoption of the Federal Amendment, as above, will legally work the instantaneous exclusion of the word "white" from the fundamental State law. No convention need be held by the people of Pennsylvania, to amend that law in conformity with the Federal Constitution, since that result will already have been a fact accomplished. A State convention for that purpose, would be superogatory. More than that, since its acts have all their validity under a subsequent confirmation by the popular voice, the submission of any amendment to the State article upon suffrage in conformity with the Federal basis, would be in effect a submission, to our people, of the question whether they accept the paramount and already binding Federal obligation. This would be a practical absurdity; as such it need not, and it ought not, to be made the subject of another popular decision—the question will have been already and finally closed.

AN IOWA dispatch of the 16th says:

> We now have returns from fifty counties of this State, which give a Republican majority of 25,105. It is safe to say that the counties yet to be heard from will increase the majority to 33,000. Perhaps 35,000, which is much better than was expected. A good number of counties have been redeemed from the darkness of Democracy to the light and truth of Republicanism. Pottawattomie, Marion, Fremont, all heretofore strongly Democratic, are now fully Republicanized.

Maryland Politics.

This State elects a Comptroller of the Treasury on the first Tuesday of November. A Republican convention has nominated Col. W. [illegible] McKillip, a leading member of the bar and one of the first men in Maryland to tender his services to the Government at the commencement of the rebellion, and well known in Western Maryland as the earnest advocate of a free railroad law, free schools and a reduction of taxation. It is believed he will obtain a large vote.

The resolutions adopted by the convention oppose repudiation as an exclusively Democratic doctrine; advocate the passage of a free Railroad law; approve of the repeal of the Militia law; advocate the establishment of a liberal system of public schools, and demand universal manhood suffrage.

The Democratic candidate for Treasurer is opposed to free railroads, and a split in the Democratic party of the State on this question is imminent. One of the strong Democratic counties has instructed its delegates to vote against the election of any person in the interest of the Baltimore and Ohio Railroad or any other incorporated body. This county has heretofore been an earnest supporter of this road. The indications give the Republicans of that State much satisfaction.

Statistics of Berlin.

Berlin, in the year 1861, had 547,57[illegible] inhabitants; in 1864 the number was 632,379, and in 1867, 702,437. The increase from 1864 to 1867 was on an average [illegible] per cent. annually, so that the population at the end of the present year may be expected to be 750,000 souls. According to the last census there were in Berlin 351,253 males and 348,728 females. The number of children attending school was 103,383.

Each dwelling contains on an average 4 2 persons, and there is a servant for every 11 2 individuals. As to religious opinions, there are in Berlin 630,271 protestants, 40,922 Roman Catholics, 27,565 Jews, and 1,223 professors of other forms of belief. There is one deaf mute for every 2,046 of the population, one in 2,372 is blind, and one in 829 is a lunatic. Berlin is a city almost exclusively Prussian, as 98.65 per cent. of its inhabitants are Prussian by birth.

Berlin contains 22 churches, 75 academies, 44 hospitals, 5 orphan asylums, 7 railway stations, 140 manufactories, 7 theatres, 3 masonic halls, 52 places of amusement (concert rooms, &c.) and 84 hotels. The entire number of public buildings is 645, and that of private houses 13,011. According to the police edict of March 12th, 1860, no house can be more than 36 feet high, reckoning from the pavement to the top of the entablature of the roof.

THE gold snuff-box sent from San Francisco to the Pope contained about $600 in gold. The box is three and a half inches long and two and a half inches wide. On the top in a blue enamel setting is a raised oval of rich gold bearing quartz, remarkable for its purity of color and the manner in which the streaks of gold ore are interspersed throughout. The box bears the following inscription: "To the Holy [illegible] the Vicar [illegible]

MINOR TOPICS.

A CHEAP and comprehensive map of the whole of the enlarged cities of Pittsburgh and Allegheny would be of vast convenience at this time. Very few of our citizens know the changes which have taken place in the various wards and streets of the cities, and there is, we believe, at present no map to which reference can be made for information upon this subject. Such a map, accompanied by tables of the various voting-places and fire-alarm stations, and signals, would be so appreciated as to remunerate any one who would undertake its production and sale.

MISS ANNA DICKINSON has assumed another championship. She has not abandoned the cause of Woman's Suffrage, which she supports gallantly, but she has now undertaken the contract of defending Miss Olive Logan. The most marked peculiarities of this latter person have been insolence and "cheek." Her little knack of assuming that her own culture, advantages and social position are so infinitely superior to those of any of her readers, might be well enough, if respectable periodicals did not publish her contributions; while to her tirades and harangues upon modesty and morality, we must listen almost with admiration at the fertility of her imagination. We fear that Miss Dickinson has here taken a heavier contract than she ever had before.

THE suburbs of many American cities have been greatly beautified, and handsome country homes rendered passable, at a comparatively small expense, by a sort of co-operative system, which should also succeed here. A large tract of suitable land is purchased and fenced in, convenient roads and drives made at the common expense, and each purchaser, while owning his own estate and being in every way as "private" as the most retiring of families could wish, avoids the expense of all fences, excepting that surrounding the whole domain, and has to pay but his proportion of the total expense of the roads. Shrubbery and shade are also provided from a common fund, and instead of each place being beautified on a separate and confined plan, one system of improvement is adopted for the whole. The houses are of course built according to the private means and tastes of each owner, but the advantage of employing the same architect and having them all built so as to harmonize with each other, is generally gained. Some of the most beautiful of the suburbs of New York, Chicago and Cincinnati are the result of some such plan as this.

THE Philadelphia *Bulletin* has a very sensible article on the subject of bells, in which it suggests that great bells in large cities may be public nuisances, and asserts that there are generally several invalids in the neighborhood of each one, to whom the clangor is often a torture. One of the peculiarities of Pittsburgh is, that if you stop and listen, at almost any hour of the day, you can hear a bell ringing. The healthy and the vigorous become so accustomed to this perpetual ringing, that they scarcely notice it, but the occupant of a sick-couch, with little but his or her own sufferings to think about, and with the senses sharpened and nerves unstrung, hears and suffers by them all. But we are afraid to second the suggestion of the *Bulletin*, because steam whistles, which would probably be substituted if bells were tabooed, are so very much worse. The despairing shriek of the escaping steam is enough to drive into distraction almost any one in pursuit of sleep. If it were possible to abolish both of these clamors as nuisances, the popular gain in comfort would be very great.

An Incident in the Early History of Greenbacks.

Texts of scripture have often been inscribed upon coins. One of the most remarkable is on a copper coin issued by the papal government, on which are the words, *Væ vobis divitibus*—"Woe to you who are rich!" When the greenbacks were first issued by the United States, Mr. Chase, then Secretary of the Treasury, consulted, among others, the President of one of the Philadelphia banks in regard to placing some motto upon them—such, for example, as has been impressed upon the five-cent pieces—"In God we trust." After mentioning several scriptural texts that had occurred to him, the Secretary asked our banker's opinion. "Perhaps," was the reply, "the most appropriate would be: 'Silver and gold have I none; but such as I have give I thee.'" The project was abandoned.—*Lippincott's Magazine.*

SOME wag records the following "decision" under the Internal Revenue law: "The latest decisions of the Commissioner of Internal Revenue cover the following points: Parties using paper collars must use them from their original package; that is, from the box in which they have been purchased; and a three cent revenue stamp must be attached to each one when but on. When the collar becomes soiled, and is turned with the clean side out, it must receive another three-cent stamp, and must also be conspicuously stamped with the word 'turned.' Boxes when emptied, cannot be used a second time, but must be destroyed in the room where emptied, and the assessor furnished with a certificate of the fact. If thrown out of the window, or carried out in the coal scuttle or wash tub, such boxes will be subject to export duty.

"Bootblacks are required to use their blacking just as they find it when the box is opened, adding nothing to it whatever. The act of spitting in the box and smearing the contents with the brush constitutes the bootblack a mixer, or rectifier, or manufacturer of blacking, and he must pay the ordinary manufacturer's license. Each boot blacked, for which the sum of five cents is paid by the wearer, must receive, at the expense of the bootblack, a four and three-quarter cent stamp."

AN interesting case has just been decided at Richmond, Va., in the Hustings Court. A motion was made that Lee George, a well educated colored man, twenty three years of age, claiming to be the son of Caroline Jackson, a colored woman, be allowed to qualify as administrator of the estate of the late Wm. O. George, of Richmond. Mr. George died intestate, owning real estate in Richmond valued at about $100,000. It was claimed the deceased had two children by his connection with Caroline Jackson, the petitioner Lee George and his sister. Several years before the war the deceased took Caroline Jackson and her children to Philadelphia, where they had resided and were well cared for at his expense. He corresponded with them uninterruptedly and gave constant proofs of his affection. In April of last year he married the mother of his children, claiming them publicly as his own. Abundant proof having been given of the marriage, the Court allowed the son to qualify as administrator of the estate of his father, the mother having resigned the right in his favor. The title of the real estate of the deceased will be made the subject of a suit at law.

THE ISTHMUS OF PANAMA.—The U. S. Consul at Aspinwall, who has returned to this country on a visit, reports that the opening of the Pacific Railway has seriously interfered with the business on the Isthmus of Panama, by reducing the number of passengers and goods conveyed by the latter route. The merchants at Aspinwall and Panama, who have always largely depended upon the custom of the California passengers, find that their sales have been reduced, and the hotels report a falling off in the number of their transient inmates. Instead of four steamers a month, as formerly, there are only two running on this route. In case, however, Panama should be made the capital of the United States of Columbia, it is hoped that the prosperity of the Isthmus will revive.

NAPOLEON is said to be in a wretched state of health. His complexion has become almost livid and he exhibits evidences of great feebleness. A correspondent of the New York *Times* says that the Prince Imperial is closeted very frequently with his father, and that all indications point to a speedy abdication in his behalf, with the Prince Napoleon as Regent. This, he says, would have been consummated long ago, were it not for the determined opposition of the Empress. She desires the Regency herself, but is too reactionary in her tendencies, and has too many sympathies with Rome, to satisfy the French people. Now that she is in Constantinople, it is thought the Emperor will carry out his wishes.

FARM, GARDEN AND HOUSEHOLD.

FARM MATTERS IN OCTOBER.

The New England *Farmer* says: Each month in the year has its special, as well as general duties. The special ones are those which can more appropriately be performed now than at any other time. October will probably afford all farmers better opportunities for doing many things that will occur during any other month of the year. It is certain that many kinds of work cannot be done while the ground is in a frozen condition.

One of these duties is that of draining lands which are unfit for cultivation in consequence of a surplus of standing water in and upon them.

The importance of drainage is better appreciated than it formerly was; indeed, many persons believe in it now, who never did before. Some progressive neighbor has placed an example before them, whose excellent results have won them over to the good work.

Few operations on the farm are scarcely less economical than attempting to cultivate land that has standing water in it. It is in a great measure labor thrown away. The soil is inactive, torpid as it were, so that it is about as capable of producing crops as the frog pond itself. Such lands will produce a certain amount of grass of an ordinary quality, and if drainage upon them is inexpedient in consequence of want of outlet, distance from home, too rocky or otherwise expensive, the best way is to let it produce what fodder it will without bestowing much labor upon it, or allow it to grow up to wood if it will. Thorough drainage will pay a better interest on the sum expended doing it, than United States bonds, or most other investments.

Another October duty is with regard to manure. We have often stated as our opinion that there is no mode of applying manure to the soil which is so cheap, and at the same time so efficacious, as to apply it in its crudest condition and plough it under the surface some two to four inches. This opinion was formed from the most careful practice in the employment of manures in various forms and ways.

When ploughed under towards the close of October, it suffers no loss whatever. Whenever the soil becomes sufficiently warm to induce fermentation, the gases thrown off are at once taken up and held by the soil-storing them in fact—for future use. This operation is said also to have a mechanical effect upon the soil, similar to that of yeast in a pan of dough, raising it by separating the particles, and thus making it lighter for the roots of plants to travel in, and to admit warmth and air.

If convenient to plough under, manure may be taken to the field, placed in a compact heap and covered with loam. It should be placed as near the spot where it is to be used as possible. In this form and place it will be ready for early overhauling in the spring.

It is time in October to commence fattening the swine, by feeding them more liberally than they have been through the warmer months. They will gain faster now than when the weather is cold. Always furnish them with a dry bed, and where the wind will not reach them, especially through cracks in the floor. They will thrive better if fed upon a variety of food, and some of it should be of a succulent or juicy nature, in order to keep the system in the most healthy condition.

Do not allow the stock to feed the mowing fields too closely. The effect is hurtful to future crops. The growth of the plants is stopped by taking off the leaves continually. If the plants continue to grow until arrested by frost they take deeper root, are better able to resist winter killing, and are made permanently better.

October affords a good time to clear up under walls, to repair fences, cut bushes, to put the buildings in order by making needed repairs before November winds break down barn doors, or set shingles and clapboards flying.

Finally, the present is an excellent time to make a great deal of preparation for the work of next spring. Very much may be done now to forward business, in removing stones from fields that are to be sowed to grain and grass in the spring, and by plowing and levelling them for that purpose. This preparation is a slow work, so that by doing much of it now, the spring work will go briskly along, and crops will be in all in good time.

These and many other things may be done in the present month of October.

RECIPES.

Apples—Take well-flavored apples—pare, quarter and boil till tender, but not to break in pieces. Add sugar to the taste, and let the whole boil up once or twice. Fill the jars and seal.

California Cakes—One cup of butter, two cups of sugar, three eggs, one cup of sweet milk, two teaspoonfuls of cream of tartar, one of soda, three and one-half cups of flour. Flavor with lemon.

To Pickle Pears—Steam your pears until quite done; then to three pounds of pears add one pound of sugar, and vinegar enough to cover them; put the vinegar on cold; mace, cloves and cinnamon to your taste.

Corn Puffs.—Six heaping teaspoonfuls of flour, three of corn meal, three eggs, one ounce allspice, half ounce cayenne pepper, two ounces mustard, and boil the whole three hours.

Boiled Custard.—To one quart of milk add four well beaten eggs and a cup of white sugar; flavor with lemon or vanilla. Put this in a tin pail, which set in a kettle of boiling water, letting it remain until the custard just boils; then remove to a cool place.

Recipe for Cologne.—For one gallon of alcohol take one ounce and a half of oil of bergamot, three onions, quarter of an ounce of nutmeg, quarter of an ounce of oil of rosemary, quarter of an ounce of oil of lavender and two grains of musk. A less quantity can be made by using the same proportions.

Chopped Pickles.—One gallon green tomatoes chopped fine, four green peppers, three onions, handful of salt sprinkled over them. Let them stand six hours; drain off the liquor, and add one tablespoonful of ground pepper, one of allspice, one of made mustard, one half pint of mustard seed and three pints of vinegar.

Cocoanut Cake.—For cocoanut cake, take the whites of eight eggs, beaten to a stiff froth, one-half cup butter stirred to a cream, half cup sugar, half cup sweet milk, two and a half cups sifted flour, a teaspoon of cream tartar, one-half teaspoon soda. Make of this three flat cakes, bake on pie tins, and while warm spread with icing, and grate on cocoanut between each cake.

To Seed Grapes.—Boil them until they burst, then part or loosen them gently with a wooden fork, or otherwise, so the seeds can sink to the bottom; then with a spoon in your hand, pour and scrape out of the vessel, leaving the seeds at the bottom. Then spread a few of the grapes on a flat dish, and with a teaspoon remove the remaining seeds. Then re-heat and can.

Corn Vinegar.—Boil a pint of corn until it is a little soft; put it into a jar; add a pint of molasses and four quarts of water; mix well together and set near the stove. In two days it will be good beer, and in two or three weeks it will be good vinegar. The same corn will do for six months. When the vinegar is made, pour it off and add molasses and water to the corn. In this way you will have a constant supply.

A Cheap and Delicious Pudding.—Take four tablespoonfuls of flour, which mix gradually into a quart of milk; add the yolks, well beaten, of four eggs, reserving the whites of the same until a moment before placing in the oven; grease your dish and pour in the above mixture, and bake in a quick oven fifteen or twenty minutes. Eat with any kind of sauce you choose.

Boiled Indian Pudding.—Take one pint of sour milk, half a teacupful of molasses, two tablespoonfuls of butter or lard, one teaspoonful of soda, one-half cup of chopped raisins, or any kind of fruit; stir in corn meal as thick as can be stirred. Boil two hours in a tin pudding dish, with a lid to shut tight, leaving room to rise. Serve with sugar and cream, flavored with vanilla, or sweet sauce or syrup.

TREATMENT OF HAMS.

Mr. Stephen Rowman, of Rensselaer county, N. Y., having in early life become dissatisfied with ordinary ham and bacon, tried to improve upon them, and at last concluded he could accomplish his purpose by smoking the tub instead of the meat. He is satisfied with his plan, which he has practiced for the last fifty-two years, and communicates it, substantially as follows: Place the tub over a small fire made of corn cobs, green walnut or rock maple, and smoke for about four hours. For about one hundred pounds of meat, use four quarts of salt, two ounces of saltpetre, and two pounds of sugar. Before the meat is put into the tub, rub a little salt in near the bones, and place a part of the salt in the smoked tub, then put in the meat rather loosely, cover with cold water, and put in the sugar, saltpeter, and the remainder of the salt. The hams will be ready for use in three weeks. The above is for cold weather; as warm weather comes on, more salt is to be added, and if a stronger flavor of smoke is required, remove the meat and brine, and smoke the tub again. Beef may be put in the tub with the hams, and in about six weeks taken out to dry. Mr. R. claims that this method is easier, cheaper and better than the usual way, and that the hams are completely kept from the attack of insects. Any portion of a cut ham may be returned to the brine.

A correspondent of the *Country Gentleman* says honey locust is about as desirable for posts as sassafras, but not equal to black walnut. One black locust post is worth three or four of honey locust; but for rails it is excellent, retaining its weight a long time. The honey locust is much less durable in some sections than others; in Missouri it will not last more than half as long as in Kentucky. Young sound mulberry, when seasoned, is as durable as cedar, and makes a better post than the majority of red cedar posts.

PARLOR PLANTS.

The *Journal of Horticulture* says that some plants will do well in rooms that will not flourish in the hot house, and that such as will thrive in parlors are highly prized. It says that house plants suffer greatly from dust which chokes the lungs—the leaves serving the function of breathing. This can be remedied by frequent sponging or showering the plants. As to watering, the journal says:

In every case where water is applied to a plant, either at root or branches, it should be of the temperature of the room where the plant grows. Rain water is preferable to any other; and where hard water only can be obtained, it should be allowed to stand some hours before being applied to the plants. In sponging plants that are very dusty, luke-warm water may be used to advantage; but after the operation, a good showering of cold water should be given. The soil used should be much the same for all window plants, and may be generally described as good garden loam.

MISCELLANEOUS ITEMS.

Collars, undersleeves, or fine handkerchiefs, of very fine muslin or lace, will not bear much squeezing or rubbing when washed. They can be made perfectly white and clean without either, by the following process: Ring them carefully through clear water, then soak them well with white soap; place flat in a dish or saucer, and cover with water; place them in the sun. Let them remain two or three days, changing them frequently, and turning them. Once every day take them out, rinse carefully, soap and place in fresh water. The operation is a tedious and rather troublesome one, but the finest embroidery or lace comes out perfectly white, and is not worn at all, where in common washing it would be very apt to tear. When they are white, rinse and starch in the usual way.

A writer in the *Country Gentleman* says: "I have seen several plans tried for keeping sweet potatoes, such as putting them up in dry sand, chaff, etc.; but I have found that rotten wood, finely pulverized, is the best thing yet. Collect the rotten wood in the summer or early fall; get it perfectly dry; grind or pound it fine, pack your sweet potatoes in it in boxes or barrels and keep them in a warm room or in the cellar close up to the floor of the house, and you need have no fear that your potatoes will be as good in the spring as when you packed them away."

ICE HOUSES may be cheaply made of rough materials that will answer every purpose, provided certain conditions be filled. There must be no free circulation of air beneath or against the ice; no water must stand in contact with it; there should be no draft of air in the chamber through which the water drains off; the ice must lie upon straw, wheat chaff, or some other non conducting material; the walls must be double, of wood, and packed in with dry saw-dust, shavings, spent tan-bark, or some other non conductor; and there must be a free communication of air through the roof, so as to not admit of a draft; and if the mass be small, say 12 by 16 feet, it should be surrounded and covered with straw, chaff, or saw-dust.

THOU BRINGEST ME LIFE—LUNG-WORT.

One of the truest and most suggestive ideas can be obtained from the caption at the head of this article; for of all diseases which impair human health and shorten human life, none are more prevalent than those which affect the lungs and pulmonary tissues. Whether we regard lung diseases in the light of a merely slight cough, which is but the fore-runner of a more serious malady, or as a deep lesion corroding and dissolving the pulmonary structure, it is always pregnant with evil and foreboding of disaster. In no class of maladies should the physician or the friends and family of the patient be more seriously forewarned than in those of the lungs, for it is in them that early and efficient treatment is most desirable, and it is then that danger can be warded off and a cure effected. In DR. KEYSER'S LUNG CURE you have a medicine of the greatest value in all these conditions. An alterative, a tonic, a nutrient and resolvent, succoring nature and sustaining the recuperative powers of the system. Its beautiful workings, in harmony with the regular functions, can be readily observed by the use of one or two bottles: it will soon break up the chain of morbid sympathies that disturb the harmonious workings of the animal economy. The harrassing cough, the painful respiration, the sputum streaked with blood, will soon give place to the normal and proper workings of health and vigor.

An aggregated experience of over thirty years has enabled Dr. Keyser, in the compounding of his LUNG CURE, to give new hope to the consumptive invalid and at the same time speedy relief in those now prevalent, catarrhal and throat affections, so distressing in their effects and so almost certainly fatal in their tendencies, unless cured by some appropriate remedy. DR. KEYSER'S LUNG CURE is so thorough and efficient, that any one who has ever used it, will never be without it in the house. It will often cure when everything else fails, and in simple cases will cure oftentimes in a few days.

The attention of patients, as well as medical men is respectfully invited to this new and valuable addition to the pharmacy of the country.

DR. KEYSER may be consulted every day until 1 o'clock P. M. at his Great Medicine Store, 167 Liberty street, and from 4 to 6 and 7 to 9 at night.

MHE EXHAUSTED SYSTEM.

Summer is a debilitating season, and the sudden change of temperature which takes place at this period of the year finds the healthiest of us considerably enervated by the preceding heat, and the weakly and delicate almost prostrated. This is not a favorable condition in which to encounter the raw winds of October and its chilling fogs and night dews, and consequently intermittent fever, dysentery, billious attacks and rheumatism are more or less prevalent everywhere, but especially in localities where the atmosphere is naturally unwholesome. In order to avoid the dangers arising from these causes, the exhausted system should now be renovated and invigorated by a course of HOSTETTER'S STOMACH BITTERS. This purest and most potent of all vegetable tonics and exhilerants regulates the secretions while it renews the strength, and purifies the fluids of the body, while it gives firmness and vigor to the nervous organization. Free from the nausea and flavor which renders the ordinary tonics so repulsive, composed of extracts and juices of the choicest vegetable invigorants and correctives, mingled with a diffusive stimulant from which every noxious element has been expelled, this renowned preparation is, in all respects, the very best medicine of its kind that the world has ever known. Such is the opinion of distinguished members of the medical profession, and the general verdict of the public, after an experience of twenty years, during which HOSTETTER'S BITTERS has attained a greater popularity and a more extensive sale than any specie ever advertised in the columns of the American press.

DR. WHITTIER

CONTINUES TO TREAT ALL private diseases, Syphilis in all its forms, all urinary diseases, and the effects of mercury are completely eradicated; Spermatorrhea or Seminal Weakness and Impotency, resulting from self-abuse or other causes, and which produces some of the following effects, as blotenes, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured. Persons afflicted with these or any other delicate, intricate or long standing constitutional complaint should give the Doctor a trial; he never fails.

A particular attention given to all Female complaints, Leucorrhea or Whites, Falling, Inflammation or Ulceration of the Womb, Ovaritis, Pruritis, Amenorrhoea, Menorrhagia, Dysmenorrhoea, and Sterility or Barrenness, are treated with the greatest success.

It is self-evident that a physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire greater skill in that specialty than one in general practice.

The Doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases, that can be had free at office or by mail for two stamps, in sealed envelopes. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicines can be forwarded by mail or express. In some instances, however, a personal examination is absolutely necessary, while in others daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is calculated to promote recovery, including medicated vapor baths. All prescriptions are prepared in the Doctor's own laboratory, under his personal supervision. Medical pamphlets at office free, or by mail for two stamps. No matter who have failed, read what he says. Hours 9 A. M. to 8 P. M. Sundays, 12 M. to 2 P. M. Office, No. 9 WYLIE [illegible] Pittsburgh.

FINANCE AND TRADE.

OFFICE OF PITTSBURGH GAZETTE,
MONDAY, October 18, 1869.

The markets in gold, bonds and stocks opened to-day with a general advance, especially gold was firmly held at 130¾@130½, the speculative demand, however, being so very limited it soon settled down to 130¼. It seems as if the present average price of 130¼ was going to be maintained for some time, until a permanent lower range is effected by our increased exports of produce.

Government bonds opened strong, with an advance of ¼ per cent., and a better feeling throughout the entire list. Investment demand, however, is still very limited, and lower prices will have to reign before purchases for permanent investment will appear in the market.

Stocks were manipulated for a rise, and New York Central sold up from 179¾ to 186¼; Lake Shore 92½; North West common 73¼, declining again to 71¾. Rapid fluctuations are expected this week in order to create a short interest and a lively market. So long as money remains as easy on call as it was for the past week, little apprehension is entertained of a marked decline, every advance, however, is followed up by realizations. Ohio and Mississippi are strong but dull at 27. Erie 30¼, and Reading is weak at 95¾@96. These latter named stocks were manipulated by the Erie party and well mantained their former quotations, it is, however, more evident that the cliques who once held the bulk of these stocks do no longer possess either the power or the prestige they once possessed. Any general and sudden decline in stocks would precipitate these shares to a very low price, from which it would be difficult to raise them.

Money is more in demand, and although nominally easy with the banks, they hold back and do not wish to discount freely except for good customers. Outside paper is difficult to place at anything less than 12 or 15 per cent., and 18 is paid on paper that used to rule 9 per cent. anywhere. The demand for good prime investment in smaller amounts is increasing, but most of our low priced securities are in denominations of $1,000 cash.

Business is more brisk, but not up to expectations.

(By Telegraph to the Pittsburgh Gazette.)

NEW YORK, October 18, 1869.

Affairs were generally dull in the different departments of speculation to-day, and the only animation was in a few leading shares of the Stock Exchange. The "bull" campaign on the Vanderbilt stocks made further progress, and New York Central was advanced to 188, Hudson to 168¾, and Harlem to 142. The continued upward movement in New York Central, is based on the large amount of grain which, it is supposed, will have to be moved by rail from Buffalo to New York, while the rise in Harlem is attributed to some project of a new city railroad enterprise by the Company. The speculation and rise in the balance of the market was not so marked as in Vanderbilt shares. At a meeting of the creditors of the Gold Exchange Bank this afternoon every creditor, with the exception of Anger & Co., signed a paper not to take any further legal measure against the Bank.

Money easier this afternoon at 5 to 7 per cent. with bulk of business at 5 to 6 per cent. Discount dull at 10 to 12. Foreign Exchange dull and unchanged, nominal rates at 9@9½.

At the opening of the Gold Room this morning the directors of the new Gold Exchange Clearing House reported they found serious difficulties in organizing a clearing house on the plan proposed and they asked for the power either to modify the present or arrange, if possible, a different plan to be submitted to the consideration of the Gold Room. At as early a day as practicable this request was granted. The Stock Exchange have again under consideration the propriety of establishing a gold department under their management. Gold dull: opened at 38⅝, fell to 30, and closed at 30⅛@30¼. Carrying rates, 4@5 per cent. to flat. Some of the banks are receiving currency from St. Louis. The banks which have the largest southern accounts have received considerable orders which cover the present week. The orders from New Orleans on one bank are for $150,000 per day during the week, although it is not expected that this bank will be able to send the full amount.

Governments higher, with a general demand, closing strong. PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE,
MONDAY, October 18, 1869.

There is nothing new or important in the general markets, nothing at least worthy of special notice. We can report a moderate local demand for most of the leading articles, but there is no inquiry for shipment east, which is in consequence of the simple fact that there is no margin, owing to the high rates of freight from this point.

APPLES—In steady demand with regular sales, at $2,00 to $3,00@350 per barrel.

ASHES—Steady but unchanged—4@4¼ for Soda, and 9 for Pearls.

BUTTER—Is a shade easier, and we now quote prime Roll at 33@35.

CHESTNUTS—Coming in freely and drooping; we now quote at $5,50@6,00 per bushel.

CHEESE—Is steady with regular jobbing sales at 15@18 cts—the outside figure for prime New York Goshen.

CARBON OIL—Standard brands 28¼@29 for round lots, and 30@31 in a retail way.

CRANBERRIES—Sales of choice eastern cultivated at $11,50@12 per bbl.

DRIED FRUIT—Apples are quoted at 9@10 cts. per pound, and Peaches at 10 cts. for bright quarters, and 14c for bright halves.

EGGS—In steady demand and light supply; fresh packed at 25@26.

FEATHERS—Dull; quoted at 80@85 cents to the trade, and the usual advance for small lots in store.

FLOUR—Is quiet and dull, with a lively competition for local trade, while prices remain unchanged. We continue to quote Western Winter Wheat flours, $6,50@6,75.

GRAIN—Wheat, although not offering very freely, is quiet and unchanged; $1,25 for prime red, and $1,30 for white. Barley, also, is scarce but unchanged, ranging all the way from $1,25 to $1,35. Oats dull, though unchanged—46@47 on wharf and track, and 50 in store. Rye is unchanged at $1@1,05. Corn is still quoted at 95 for mixed and $1 for prime yellow on track, with the usual advance in store.

HAY—Sales from country wagons at $15@23—mostly at $15@20.

HUSKS—Sales at 2¾@3 cts per pound.

LIME—Sales of Cleveland white lime at $2@2,25 per bbl.

LARD OIL—Extra No. 1, at $1,45@1,48 and No. 2, at $1,05@1,08.

ONIONS—Sales at $2,50@3,00 per bbl, the outside figure for choice.

POTATOES—Sales Peach Blows at 50 cents per bushel. Sweets $3,50 for Baltimors, and $4,50 for prime Jerseys.

PROVISIONS—Market steady with a continued fair jobbing demand but prices unchanged. We now quote shoulders at 17@17½; Clear Ribbed Sides, 20½; Clear do, 21; Ribbed, 20; plain Sugar Cured Hams, 23. Lard, in tierces, 20; in half bbls, 20½ in kegs 21. Mess Pork, $33,50.

POULTRY—Sales of chickens at 55 to 65 cents per pair, according to size.

SEEDS—Timothy Seed is dull and we now quote at $1,00@4,25. Flaxseed is quoted at $2,35@2,40. No movement in Clover Seed.

SALT—Is firmer, with sales of car load lots at $1,85 per bbl.

STRAW—Sold in Allegheny market at $12 per ton.

PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE,
MONDAY, October 18, 1869.

It was rumored to day that the Pennsylvania Railroad Company had agreed to postpone the advance in freight until the first of next month, and this, as might have been expected, produced a better feeling, and the gloom and stagnation which characterized the market on Friday and Saturday, has, to some extent, dssappeared. It was not fair on the part of the railroad company to make such an important and marterial advance on so short a notice, as it would, temporarily it may have been, have thrown the whole trade in confusion, and placed many of our refiners and dealers in a very unpleasant and embarrassing position, especially those who had sold for this month, based on the old rate of freight. If it is deferred until the first of next month it will be a great benefit and relief to the trade at large, and that the Central Company will do what is fair and proper in the matter, there seems to be no reason to doubt.

—Since the above was put in type, we have reliable information to the effect that so far as the Pennsylvania Railroad Company is concerned, there will be no postponement in regard to the advance in freight, but that the change will take place, as before announced, to-day, and that all oil shipped over this road on and after to-day, until further notice, will be charged the advance. This is very unfortunate, and will for the time being, have a damaging effect on the trade, but it seems there is no help for it.

CRUDE.

The rumor that the advance in freights would be deferred until the first of next month, had a tendency to stiffen the market somewhat this morning, and as will be seen several sales were effected at a slight advance. This afternoon, there appeared to be but few buyers, and if anything, there was a stronger inclination to sell. Sales of 1,000 seller October, at 15; 2,500 to be delivered on first water at 15; and 1,000 buyer all year at 15¼.

REFINED.

Market quiet though without important change and but little done. Sale 1,000 October at 32¾; 2,000 do at 33; and 1,000 do 33. Late in the day 32¾ was reported as the best bid for October, and October to December was quoted at 33.

ALLEGHENY CATTLE MARKET.

OFFICE OF PITTSBURGH GAZETTE,
MONDAY, October 18, 1869.

CATTLE.

The supply on sale to day, although fully up to the demand, was, nevertheless, considerably below that of last week and the week preceding, and while the market was more active, and somewhat stronger, yet there was little or no change in prices. All grades of cattle, as already intimated, sold quicker than last week, and for the better grades holders experienced no difficulty in realizing very full prices, and a larger number of this particular kind could have been sold. In regard to the common and medium grades there are no new features excepting, perhaps, that the demand was more active and dealers experienced less difficulty in effecting sales than last week. As will be seen, by reference to the report of sales, prime to extra fat cattle sold at from 7 to 7½@7¾, with a few fancy at 8. Stockers, of which there was a pretty full supply, sold at from 4 to 5¼, as to quality and condition.

Of the stock on sale to-day, about 1,000 head, Chicago furnished 11 cars; Cincinnati 2; Indianapolis 1; Warsaw 2; Columbia 2; Loudenville 1; Crestline 2; Orrville 2; Mansfield 4; Bellair 2; other points not named, 5—total, 34 cars. In addition there were quite a large number driven in from adjoining counties, and several bunches were brought over from the central yards.

S. Marks & Bro, 68 head Washington county steers at 5½@7¾; 15 head Ohio steers, mixed, at 5@6½.

Katz & Kecrer 38 head Chicago steers at 5@6½.

Jacob Needy sold 57 head Ohio steers at 5½@6.

L. Rothchilds & Zeigler 57 head mixed stock at 5@6½.

M. Verner 40 head Washington Co. stock at 5¼@7.

Peter Hartman sold 35 good to prime steers, from Green county, at 6@7¾.

Greenwald & Kahn 80 from Chicago and Ohio, at 3¼@7¾.

Joseph Myers 66 head stock steers at 4¼@5½.

Holmes, Laferty & Co. sold 118 head mixed stock at 4¼@6¾.

Jas. Hanlin sold 12 head Washinton county steers, heifers and cows, at 5¼@6.

Geo. Perritt sold 25 head 1 Washington county steers averaging 1,000 lbs, at 5¾.

Peter Sheitmantle 18 head Butler county stock at 4½@6¼.

Wilson & Herr wholesaled 30 head Washington county cows, steers and heifers to Kraus & Haas, at 5¼.

Stakely & Bro. 18 head from Beaver and Butler counties, at 3@5 cents.

Garwin & Co. sold 17 head Butler Co stock.

J. C. McNeese sold 51 head Butler Co. steers and heifers, at 4@5 cts.

Smith & Blue sold 21 Indiana steers and heifers, at 4½@6.

Nicholas Carr 20 head mixed stock, at 4½@6.

Hedges & Taylor sold 40 head mixed stock, at 5½@6¼.

Hazlewood & Blackstock sold 60 head mixed stock, at 5@7¼.

Jas. McAllister sold 20 head fairish Indiana stock for Cullen, at 6@7¼.

L. & J. Shamberg sold 90 head of steers from Chicago; stockers at 4¼@4¾; fat cattle at 6@7,40.

Trautman & Lobman sold 57 head Washington Co. steers at 5¼@7¼; 70 head Chicago steers at same.

SHEEP AND LAMBS.

There was a full supply of this class of stock on sale to-day, about 2,800 head, but they were mainly of an inferior quality. Prime fat Sheep and Lambs sold readily at full prices, and the supply was not equal to the demand; but common and inferior, of which the offerings mainly consisted, were very dull, and it looked at ten A. M. as though there would be a good many left over unsold. We can report sales of extra 95 to 100 lb sheep at $5,00 per head, and we are cognizant of $4,00 per head having been paid for extra fat Lambs. These, it should be remembered are "top" prices and nothing but "top" Sheep or Lambs could be sold at these quotations. As has been the case for some time past, the great proportion of the offerings were from Butler county, with some few from Beaver and Washington.

Garwin and Co. 135 sheep and lambs.

Ranes Stouffer 170; sheep at $1,25@2,25; lambs at $1,00@2,00.

Stakely & Bro. 60; sold sheep at $2,50, and lambs at $2,00.

Flinner, Sheitemantle & Reeler 500; sold 20 sheep averaged 115 lbs, at $5,00 per head; balance at $1,50@3,50; sold lambs at $1,25@4,00.

Jacob Emmell 300 head sheep at $1,25@3,25.

John Walters sold 300 head.

Adam Eckert sold 89 sheep and lambs at $1,80@5,00; sold 95 on commission, at 4,80 per cwt—prime Ohio sheep, averaging about 93 lbs.

Jacob Rinn sold 89 sheep at an ayerage of $3,00 per head.

Kerr & Givin 120 Washington Co. sheep and lambs at $2,10 per head; Williams retailed same at $1,50@3,50.

Johnathan Davis sold 156; sheep at $1,75@4,00 per head; 140 head of Green Co. sheep wholesaled at $1,57½ per head.

J. H. Bell 76 sheep from Hancock Co. West Va.; sold 8 at 4 cts per pound, balance unsold.

Emerick & Co. sold 114 sheep at $1,50@3,50 per head.

John Gallagher wholesaled 126 sheep to Williams at $2,55 per head.

HOGS.

Market more active as the retail demand is increasing with the approach of the cold weather, though the extreme prices now prevailing causes butchers to buy more sparingly than they otherwise would. Sales in a retail way at $10,50@11,50 gross, according to quality and condition.

Jacob Needy wholesaled 66 head to Emerick & Co. at 10½; Elliott & Henderson wholesaled 20 to Jacob Rothchilds at 10¼.

John Kerwin reports having retailed 69 head at $10,50@11,50.

RIVER NEWS.

The river continues to recede steadily at this point with about 31 inches in the channel by the Monongahela marks last evening. Weather was cloudy and cool —there was quite a heavy white frost on Sunday night. Mercury at 4 P. M. 50.

The Mollie Ebert from Cincinnati, is the only transient arrival we have to report. She did not, as might have been expected, have much of a freight list, though she had all she could bring on the water, including the outfit of the ill-fated J. N. McCullough.

The New State, from Wheeling, arrived and departed as usual. It seems we were in error in reporting her aground at Glass House the other day.

The Julia No. 2 from Zanesville, due here on Sunday night, had not arrived up to 4 P. M. last evening.

Boats in port—Messenger Glendale, Mollie Ebert, Kate Putnam, and Ironsides. The Messenger is loading for New Orleans, and the Glendale for St. Louis—to go out on the first rise.

—The Maggie Hays left St. Louis for Pittsburgh on Friday last, and the Mary Davage left New Orleans the same day for St. Louis.

—The Galveston (Texas) *News*, of the 10th inst. says that Judge Smith left there that day for Pittsburgh with the intention of purchasing a steamer for the upper Neches trade.

—The Louisville *Courier* commends the following letter from Capt. J. T. Stockdale, of this place, to B. C. Levi, of Louisville. It is dated Pittsburgh, October 9th: The steamer Sallie left here yesterday at three o'clock for your city, and will be there by Wednesday, and will return, I suppose, on, Wednesday evening. I want her to leave Louisville every other Wednesday or Thursday, whichever day will be found to suit the best, and Pittsburgh every other Friday, and will soon have another boat to take the other week, giving one boat each week through. Hoping you may be able to give her a return trip, I remain yours respectfully,

J. T. STOCKDALE.

SPECIAL NOTICES.

SCHENCK'S PULMONIC SYRUP, SEAWEED TONIC AND MANDRAKE PILLS will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens into the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivaled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all billious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparation with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond street, New York, every other Tuesday, and at No. 35 Hanover street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists.

DOLLAR SAVINGS BANK.
NO. 65 FOURTH STREET.
CHARTERED IN 1855.
ASSETS........................$4,303,431 33

Open daily, from 9 o'clock A. M. to 3 o'clock P. M., and SATURDAY EVENINGS, from May 1st to November 1st, from 7 to 9 o'clock, and from November 1st to May 1st, from 6 to 8 o'clock.

Deposits received of all sums of not less than ONE DOLLAR and a dividend of the profits declared twice a year, in June and December. Interest has been declared semi-annually in June and December since the Bank was organized, at the rate of six per cent. a year.

Interest, if not drawn out, is placed to the credit of the depositor as principal, and bears the same interest from the 1st days of June and December, compounding twice a year, without troubling the depositor to call, or even to present his pass book. At this rate money will double in less than twelve years.

Books containing the Charter, By-Laws, Rules and Regulations, furnished gratis, on application at the office.

PACIFIC RAILWAY GOLD LOAN.

Messrs. DABNEY, MORGAN & CO., 53 Exchange Place, and M. K. JESUP & CO., 12 Pine Street, N. Y., offer for sale the Bonds of the Kansas Pacific Railway. These Bonds pay seven per cent. in Gold; have thirty years to run; are Free from Government Taxation; are secured by a Land Grant of Three Million Acres of the Finest Lands in Kansas and Colorado. In addition to this special grant the Company also owns Three Millions of Acres in Kansas, which are being rapidly sold to develop the country and improve the road. They are a first mortgage upon the extension of the road from Sheridan, Kansas, to Denver, Colorado. The road in operation, 437 miles long, upon which it is also a mortgage, NOW EARNS MORE THAN ENOUGH NET INCOME TO PAY THE INTEREST ON THE NEW LOAN. There is no better security in the market—this being in some respects better than Government Securities. PRINCIPAL AND INTEREST PAYABLE IN GOLD. Price 96, and accrued Interest, in Currency. Pamphlets, Maps and Circulars furnished on application.

We have a full supply of the above Bonds on hand and for sale, and we take pleasure in recommending them as a very reliable and perfectly safe investment.

SECURITY AND COMFORT
for the traveling community.
J. B. HARRIS
Safety Fire Jacket, Car Heater and
MODERATOR.
For Smoke and Hot Air Flues, dispensing with the use of stoves and fires in or about the Passenger or Baggage Cars, with the attachment to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached. Having obtained of the United States Letters Patent for a Safety Jacket, which is warranted to resist the most intense heat that may be applied to it in the position and purpose for which it is intended.
It is a sure protection from accidents by fire, originating from defective flues or where iron pipes are used as conductors for smoke or heat. It is applicable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto. I am now ready to apply my invention to stores, dwellings, factories, ships, steamboats, railroad cars, &c. Wherever pipes as conductors are made dangerous by being overheated and security desired, I will send on application right to manufacture or use the above invention. Also Territorial rights to such as may wish to engage in selling privileges either by State or county.

Mayor Drum has again resumed his official duties, after a pleasant sojourn in the East.

At Last.—The paving on Roberts street has been nearly completed, and gas pipes are now being laid on it.

Committed.—Justice Barker yesterday committed John Zimmerman to jail for thirty days on a charge of vagrancy.

The attention of parties wishing to go into a good paying business, is called to an advertisement under the head of "For Sale."

Sunday Liquor Selling.—Yesterday two saloon-keepers from Troy Hill were before Mayor Drum charged with selling liquor on Sunday. They gave bail for Court.

Repaired.—The fountain on Second avenue, which was a few weeks since torn down by some vandal, has been repaired, and is now in good order, to the great comfort of both man and beast who travel that way.

Compromised.—Christ Konig made information before Justice Barker, yesterday charging Herman Sleiden with assault and battery. Sleiden was arrested and taken to the Justice's office, where the case was compromised.

Assault and Battery.—James Richey made information before Justice Salisbury, yesterday, charging Michael Shelhan with assault and battery. He alleged that the accused hurt and abused his, the prosecutor's, son. Shelhan was arrested but the case was compromised.

Abused a Boy.—William Haven made oath before Justice Salisbury, yesterday, charging Ed. Schultz with assault and battery. It was alleged that the accused had beat and abused deponent's son. Schultz was arrested and held to bail for his appearance at Court.

Sunday Liquor Sellers.—John Sweeny and Charles Hilger were returned before the Mayor yesterday for selling liquor on Sunday. Hilger, it appears, on Saturday last, paid the penalty of $50 for a like offence. Summons were issued in both cases.

Correction.—Robert McAdams was elected Councilman in the 14th Ward, at the election on the 12th, having received the highest number of votes. As the returns were published, Mr. Neil Craig seemed to be elected, but the figures were incorrect.

The New Tariff in frieght on the Pennsylvania Road will not take effect till November 1st, instead of October 13th, as was formerly intended.

This notice will doubtless be interesting to the oil men, although it is intended for the public generally.

Home Enterprise.—The rolling stock on the Allegheny Valley Railroad has been increased within the past few days by the addition of a new twenty ton switching locomotive from the Pittsburgh Locomotive Works, located in the Sixth Ward, Allegheny. Another of the same dimensions will be placed on the road during this week.

The Knife in Play.—Saturday night, it is alleged, John Shulters, proprietor of a saloon on Middle street, attempted to eject Charles D Bach from the premises, when he was stabbed twice in the right cheek by his opponent. Alderman Arent yesterday committed Bach for trial, on oath of Shulters, for assault and battery.

Water Supply.—A water pipe is being laid on Washington street connecting with the main pipe from the upper basin on Bedford avenue, in order to afford a better supply of water to the residents of that locality, who are frequently left destitute of water in consequence of the large amount required to supply the Pennsylvania Railroad Company.

Castle Thunder.—Mark Piper made information before Justice Salisbury, yesterday, charging Henry and Frank Weidner with assault and battery. It appears that the defendants and prosecutor were at "Castle Thunder," a house of ill repute on Washington street, Birmingham, where, it is alleged, the prosecutor was beaten and abused by defendants. The accused were arrested and held for a hearing.

Street Improvements.—Sixteenth street is paved and now opened to travel. Willow street has been paved from Fortieth to Forty-fourth street, and was opened to travel yesterday. One square of Wylie street, from Tannehill to Arthurs street, was finished and opened to the public yesterday. Twenty-seventh street from Smallman to Penn has been graded and is now ready for paving.

Wanted—The Mayor's police are in search of Daniel Ragan, who is charged, on oath of D. M. Bryan, a disabled soldier, with the larceny of a coat and vest valued at $20. Bryan resides at the Soldier's Home, where it appears the accused was employed, and during the absence of Bryan it is alleged that Rogan entered his room and took the articles mentioned. A warrant was issued for his arrest.

Would not Compromise.—Three whisky dealers residing in the First ward, it appears, were entrapped by an informer, who, after threatening to return them, proposed to compromise if the dealers would pay him $25 each. They declined to pay tribute in this way, and in order to beat the informer out of his fees, had one of the Mayor's police return them, and yesterday they went to the Mayor's office and paid $50 each.

The Point Again.—The Point, that delectable locality is again figuring in police annals. This time Bridget Kennedy and Margaret Farley are the representatives of the festivities. Bridget charges Margaret with threatening to scald her, calling her all sorts of improper and unkind names, and otherwise demeaning herself in an illegal manner. Alderman Strain was made acquainted with the circumstances, which resulted in the arrest of Margaret. She was held for a hearing.

Friendship Rewarded.—On Saturday evening at a late hour John McMurphy, while crossing the Monongahela Suspension Bridge, came across John Kayler, an old friend, who was very much under the influence of liquor. He attempted to prevail upon Kayler to go home, whereupon Kayler became offended and struck his friend, which McMurphy took as an insult, and consequently returned the blow. A general fight then ensued. An officer, hearing the row, arrested them, and took them to Justice Barker's office, and they were held for a hearing.

G. A. R. Lectures.—To-morrow night that inimitable American humorist, Josh Billings, will open the course of lectures under the auspices of the Hays Post 3, G. A. R., in Lafayette Hall. He will discourse on that suggestive topic "Milk," which, under his peculiar presentation, will doubtless develop into creamy proportions of wit of the most enjoyable sort. All who would spend a delightful evening merrily should be at Lafayette Hall on this occasion. Tickets for the lecture or the entire course may be had at any of the music stores.

Collision.

A few days ago a collision occurred on Chatham street between one of Kreb's ice wagons and a milk cart. The milk cart was overturned and damaged to the extent of $41. The occupant, Mrs. Margeretta Carstins, also suffered severe injuries and had one of her ribs broken by being thrown out of the vehicle. She alleges the accident was wholly the result of carelessness on the part of the driver of the ice wagon. Yesterday she made information against him for malicious mischief before Alderman Koeing, upon which a warrant was issued.

Trouble About a Sale.

Yesterday George Snyder appeared before Alderman Bolster and made information against Valentine Allen for false pretence. The difficulty originated from a business transaction. Snyder alleges Allen sold him a blacksmith shop, corner of East street and North avenue, Third ward, Allegheny, together with tools valued at $300, which he claimed to own. Subsequent investigation, it is alleged, developed the fact that the greater part of the tools were owned by a third party—hence the information. Warrant issued.

A Castle Stromed.

"Castle Thunder" is an establishment located on Washington street, Birmingham, and for some time past has been declared a nuisance by the peaceful and law abiding citizens of that locality. It has had its day, however, and is destined to be numbered among the places that were. Information was made before Justice Ammon yesterday, by John Nesbit, charging the proprietor and proprietress of the castle, Nicholas and Catherine Hoyle, with keeping a disorderly house. A warrant was issued, and the officer arrested Mrs. Hoyle, who, after a hearing, was committed to jail in default of bail for her appearance at court. Nicholas, having heard of the prosecution had business in the country, and consequently has not been arrested.

THE COURTS.

Oyer and Terminer—Judges Mellon and Stowe—Trial of John Grimm for the Murder of James Shovelin—United States Courts—Supreme Court—County Courts.

MONDAY, October 18.—In the Court of Oyer and Terminer the case of the Commonwealth vs. John Grim, indicted for the murder of James Shovelin, was called. The Commonwealth is represented by District Attorney Pearson, T. M. Marshall and M. Swartzwelder, Esqs., and F. H. Collier, W. C. Moreland, and Wm Owens, Esqs., appear for the defendant. A plea of not guilty was entered, after which the work of empaneling a jury was commenced.

HISTORY OF THE CASE.

The defendant is a young man about twenty-three years of age and worked at Morehead's rolling mill. On the evening of the 11th of September, he called at the house of Joseph Gant on the Frankstown road, near Soho, to see Shovelin, who worked at Eliza furnace and boarded at Gant's. It appears that there was a bad feeling on the part of Shovelin against the defendant, and that he, Shovelin, had made some threats against him, and that the object of defendant's visit was to ascertain the cause of the ill feeling referred to. He met Shovlin in the kitchen, and had been in there but a few moments when a difficulty arose between them, during which the fatal shot was fired.

About four o'clock the last juror was obtained, after which the case was opened by Mr. Swartzwelder, who, in detailing the facts to the jury, stated that it would be proved by the Commonwealth, perhaps, that an animosity existed on the part of the prisoner, who sought the house of deceased armed, and with the avowed purpose of killing him.

Dr. W. H. Daly testified that he attended the deceased, and described the wounds which produced death.

Mrs Jane Grant, with whom the deceased boarded, related the circumstance of the altercation at her house before and after the alleged murder, and essayed a statement to the effect that likely the pistol was accidentally discharged when the parties were "in holts" at her residence. In cross examination she stated that she did not think the men were well acquainted with each other. The affair, she believed, was about a dog, for Grimm's dog attacked Shovelin one day, when the latter remarked he would kill the animal and its owner.

These are the material points of the case, though considerable evidence was adduced. The further hearing of the case will be resumed at 7 o'clock this morning.

Supreme Court of Pennsylvania

The Supreme Court of Pennsylvania convened at 10 o'clock yesterday morning in the Supreme Court room in this city. Present; Chief Justice Thompson and Judges Reed, Agnew, Sharswood and Williams.

EDUCATIONAL.

Scott Township Teachers' Institute.

Pursuant to adjournment, this Institute convened at nine A. M., on Saturday at school room No. 6, Miss L. R. McMillen, instructor. There was quite a large attendance of pupils, teachers, directors and spectators present, among whom were Profs. Douglass and Hunt, who take a lively interest in educational affairs, and are constant in their attendance at the Institutes.

The forenoon was devoted to the regular routine of school exercises, conducted by the teacher. The recitations were good, the order unexceptionable, and the interest manifested by the pupils in their studies very commendable. The forenoon session was concluded with short addresses by teachers and others who were present as visitors. Much good advice was given, and some very appropreate and suggestive incidents were narrated by the different speakers, but the undue quantity will doubtless preclude the possibility of its being remembered. After an hour spent in social converse during which ample justice had deen done the viands prepared by the ladies, the meeting was called to order by the President, the exercises of the afternoon were opened by a class drill in education conducted by Prof. S. J. O. Sterett. This exercises was interesting and called forth numerous and suggestive remarks on the various methods of reading.

This was followed by a discussion on the following question: "Is it necessary that the laboring men as a class should be educated?" The question was opened by Prof. Wm. Sturgeon, of Lebanon, in a well timed and eloquent speech, in which he pictured all the glowing beauties connected with an educated life. The opposition was then opened by W. M. McCullough, of Mansfield, who proceeded at once to show the growing necessity of a greater amount of manual labor and less brain work. The question became interesting and was warmly discussed on both sides. An essay was then read by Miss Lizzie Snodgrass, entitled "Our Influence in Society." The performance was a good one and did credit to the young lady's literary talents.

After the transaction of some business of minor importance the Institute adjourned, to meet at school room No. 2, commonly known as Scrubgrass School, S. J. O. Sterett instructor, on Saturday, October 30th, at which time a large audience and interesting exercises are anticipated.

Coroner's Inquest.

The adjourned inquest relative to the death of Mrs. Annie Moore and her grandchild, Annie Johnson, was held by Coroner Clawson at his office yesterday morning.

Several witnesses were examined relative to the character of the accused, Gerhardt Johnson, a driver for Mr. Haid, brewer, Allegheny, who it was alleged caused the death of deceased by driving over them on Monday, last week.

Mary Fidler, a girl in the employ of Mr. Dittler, a saloon keeper, witnessed the accident, and exculpated the driver of the vehicle from the accusation of fast driving. Nancy Gould testified that the child was alive for a few minutes after the catastrophe. John Dittler, the saloon keeper alluded to, deposed that the accused was in the habit of serving him with beer, and that he was driving slowly on the occasion in question. The definition of "fast driving" given by this witness was "As fast as a horse can go." Sebastian Haid, the employer of the accused gave him an excellent character, as regarded his sobriety and carefulness in the discharge of his duties.

Henry Bander, a fellow-workman of Johnson's, also spoke highly of his attention to his duties. He essayed a remark, to the effect that Johnson's horse was young and flighty, and that probably on this account the accident occurred.

Philip Adrian gave similar testimony. Albert Steahle, a tavern-keeper, with whom Johnson boarded for two years, exculpated him for the charge of drunkenness or recklessness in driving.

After the hearing of the testimony the jury adjourned to the jail, and had an interview with the prisoner. On being cautioned by the Coroner as to the impropriety of his wishing to hear any testimony from him which would inculpate him, Johnson stated that the accident was purely accidental; that one of the animals which he drove was a colt; that he did not perceive the females on the track until within a few feet of them, and that he was extremely sorry for being in one sense of the word accessory to their death. He seemed visibly affected, and spoke with earnestness and feeling. He is a Prussian, about twenty years of age.

The jurors found a verdict in accordance with the facts adduced, and drew the attention of "the powers that be" to the necessity of stringently enforcing the city ordinance which has reference to "furious driving."

The Soldiers' Monument.

We take it that the vote of the people has determined only that the Monument shall be located *some where* in the Allegheny Park. The particular spot in the Park on which it shall stand has not been settled. We know the opinion is general that it should stand upon Seminary Hill.

We submit to the Committee who are to fix the exact location that the money provided is not sufficient to defray the cost of a monument large enough for the hill site: that a $25,000 structure would necessarily be so small that when set upon the hill the contributors and the visitors would be forced to regard it as a failure,—as an inadequate expression of the reverence everywhere felt for the memory of our fallen braves. Unless the fund can be increased to $50,000 or $100,000 the hill site should be abandoned and the monument erected at some eligible spot on the plane.

Surely the Hill is a fit site only for a structure of great size which would appear large when seen from the many distant points of view to which it would be exposed and recognized by citizens or strangers at once as a *public* and not mistaken for a *private* memorial. We suggest therefore that the site once mentioned in the GAZETTE in the center of East Common, at the point crossed by Ohio street, is greatly preferable to the Hill for a Monument costing less than $50,000.

TRUE ECONOMY.

Great Bargains in Ladies Furs at Wm. Fleming & Co.'s Wholesale and Retail Emporium, No. 139 Wood Street.

Ladies cut this out and keep it for reference. It will save you money and it will serve as a finger post to direct you into the pathway of economy, or what is the same thing, into the extensive and first class ladies' fur emporium of Wm. Fleming & Co., No. 139 Wood street. There you will find one of the largest and finest assortments of ladies furs ever offered in this market, embracing all the latest and most fashianable styles of Cloaks, Berthas, Sacques, Collars, Eugenias, Boas and Muffs, made in superior style of the best qualities of Hudson Bay Sable, Mink Sable, Astrican and Persian Lamb, German Fitch, Siberian Squirrel, Water Mink, and black and brown Sables. The immensity of the trade, both wholesale and retail, transacted by this house enables the proprietors to secure very decided advantages over smaller houses in the purchase and selection of goods, and moreover affords them opportunity to sell their goods at from fifteen to twenty-five per cent below the prices of their neighbors. Retail purchasers should make special note of the latter fact.

ANOTHER IMPORTANT FEATURE.

Another important feature is the management of the affairs of the house. Business is conducted in a fair and upright manner, and such rules as the following are rigidly enforced and under no circumstance can they be deviated from:

1. All goods are warranted to prove to the purchaser what they are represented to be when bought.

2. No clerk or salesman is permitted to make any false representation to secure a sale. All are instructed to truthfully inform purchasers as to the nature, grade and quality of furs, of their merits and demerits so far as is known to the trade.

3. All visitors are made welcome, and goods are shown with pleasure to any who may call, whether desiring to purchase or not. No trouble to show goods is made the motto of the house.

It is by such rules and by liberal dealing that this old and reliable house has drawn to itself a trade of such exceedingly large proportions, as to make it merit the proud place of leading the entire traffic. We have spoken hitherto of the finer grades of furs, but it must not be taken for granted that the lesser or cheaper grades of ladies' and misses' furs have no representation in the large stock; to the contrary the lines in that quality of good, are full and complete and afford excellent variety for ready selection. So likewise with gentlemen's furs, of which a large stock is held. In conclusion, for anything in the fur line go to 139 Wood street.

Amusements.

NEW OPERA HOUSE.—It is peculiarly unfortunate that our city has been visited in the same week by two rival English Opera troupes, inasmuch as the same support awarded both would have been concentrated on either had they come separately. However, we hope there will be a general revival in musical matters during the brief season inaugurated, and that both troupes will have successful engagements. If the Opera House be not crowded to its fullest capacity every night of the present week, we shall be sadly disappointed, for no sweet and charming songress is more worthy cordial greeting from a refined and cultivated people than Miss Caroline Richings Bernard. She is worthy a repetition of the triumphs she has hitherto sustained in this city, and worthy the hearty recognition of those claims she has on the hearts of the American people, having contributed more than a woman's share towards developing in this country a taste for the fine arts, a love for music, and a regard for all that is noble and elevating. To her, more than any other, is due the credit of popularizing the English Opera—In truth, we might say, she introduced it in this country, and struggled, single handed, to secure its place on the boards. The company with her combines a splendid array of genuine talent and merit, and their interpretations have everywhere been received with enthusiasm.

To-night Martha will be presented, with Caroline Richings sustaining the leading part, assisted by a full company and orchestra. Wednesday evening the "Bohemian Girl," in which the splendid tenor, Mr. Henry Haigh, will make his *debut* in Pittsburgh. Thursday "Fra Diavolo," Friday "Faust" and Saturday "The Crown of Diamonds." On Saturday afternoon a fashionable opera matinee will be held. Many choice seats remain unsold and the box sheet remains open at the office of the Opera House.

PITTSBURGH THEATRE.—A large audience assembled at the Pittsburgh Theatre last night to witness the first entertainment given by the Ronalli troupe of gymnasts, whose wonderful and daring feats so gracefully executed, have claimed the admiration of all who have witnessed them. They will appear at the Old Drury every evening this week and at the Wednesday and Saturday matinees.

THE PAREPA ROSA ENGLISH OPERA.—The Parepa Rosa grand English Opera Company commenced their short season at the Academy of Music last evening before an audience as distinguished as appreciative. The edifice was literally thronged long before the hour announced for the opening. This being the first appearance of the *prima donna* in grand opera in Pittsburgh, the event has been looked forward to with no little degree of interest. The opera selected for the occasion was Flotow's charming and popular one, in five acts, entitled "Martha," in which Madame Parepa of course sustains the chief character, that of Lady Harriet, or Martha. Her *role* was unrivalled, and the *cast* judiciously selected. "Martha," like the vast majority of English dramas, is founded on a series of improbable circumstances, yet withal when presented on the stage in fitting manner conveys to the auditory a degree of truthfulness which obliterates any tendency to fiction. It is a story of love in disguise, where Martha, cousin of a certain Lord Tristan (Mr. E. Seguin,) prevails upon the latter, a would-be Benedict, to permit her with her maid Nancy (Mrs. E. Sequin) to visit the Martinmas fair. At these fairs, even to the present day, in the agricultural shires of England, the servants yearly assemble, either to hire anew or enjoy a season of conviviality. Her relative reluctantly consents to the request, after which the lady and her maid seek the scene of barter and festivity. Here they engage to serve, Martha, Lionel, afterwards Earl of Derby, (Mr. Castle) and Nancy, Plunket, (Mr. S. C. Campbell) a wealthy young farmer. After thoroughly enjoying the hoax both escape from their employers' residence at midnight, meet subsequently, undisguised, and after a confession of reciprocal admiration are eventually married.

Mr. Flotow the author of this dramatic effort exhibits in his text, a certain sunshiny freshness and picturesqueness, painting both his scenery and his figures very graceful. He is brilliant, occasionally full of force and glowing brightness, blended in the softest composure. He shows a deep and sincere love of the beautiful in nature, and has the readiest faculty of expressing this by imagination and by word. Parepa Rosa gives to the wording of this composition, a force of coloring and depth of feeling, which fails not to impress the hearers with its variety, vivacity, magical felicity and living presentment of character. We have said that the Prima Donna in her unrivalled *role* of Lady Harriet was sustained by an efficient *cast*. It might be said without a shade of flattery that they, too, are very fair in drama. Mr. Castle, as Lionel, is personally a type of English manhood, added to which his clear, mellow voice is full of tenderness and feeling, and blends exquisitely and harmoniously with the liquid and thrilling notes of Parepa Rosa in *Duette*. This was so marked as to be the signal for an ovation, in their singing of the immortal bard of Erin's "Last Rose of Summer." So sweetly rendered were the lines:

No flower of its kindred
No rose-bud is nigh,
To reflect back its blushes
And give sigh for sigh.

and such earnestness did they exhibit in look and gesture, thus reading, as it were, the soul of the lamented Moore, that a perfect storm of applause was the result, and an *encore* accorded. The "fair" scene which has been pronounced by the New York press as a "senic triumph seldom witnessed in the Grand Opera," must have been exhibited in New York under more auspicious circumstances than at the Pittsburgh Academy of Music. Here its representation was received with no enthusiasm, nor did it merit any. The "farmers," "hunters," and "pages" were as ill favored a collection of the male species as could with difficulty be gathered among the "gods," and as for the "servant maids" and other female portion of the "villages," they, notwithstanding the mysteries of the green room, seemed with three solitary exceptions, far removed from what illusive [illegible] would lead us to believe they appear like. This opera, although under the stage management of Mr. Henry Jackson, with whose efficiency and talent the public were acquainted, lacked much in the absence of minor appointments. The costumes were in many instances arranged without taste, and rather hurriedly adjusted, thus partially destroying their effect, and entirely annihilating the suaviloquy of one lady, who narrowly escaped behind the wings without leaving her skirt on the boards. Mr. John A. Dasey, the property maker, might have remembered that a few flowers and eggs and one pumkin are not the *only* articles disposed of at a fair in England, whatever amount of probability was centered in the English un-aristocratic idea of an Embroyo Earl fraternising with a yeoman.

CRUSHED TO DEATH.

Horrible Accident in Allegheny—Man Killed in a Well.

Yesterday afternoon another fatal accident occurred in Allegheny, which makes the third in the list in less than a week. A party of men were engaged digging a well at the rear of a new house in course of erection on Ohio, close to Sandusky street. One of them, Rudolph Heckenmiller, was at the bottom of the well, about twenty five feet down, when a bucket full of dirt was hauled up. By some accident, at the top, the bucket became disengaged from the windlass rope, and fell back into the excavation, striking Heckenmiller on the head and felling him underneath the weight. Immediately others of the workmen descended and lifted the dirt and bucket away when it was found that the head of the unforttnate man had been crushed in, producing instant death. The accident occurred about five o'clock. The deceased was about forty years of age, unmarried and boarded at Schultzy's, corner of Perry and Chestnut streets, Fourth ward. The remains were removed to the boarding house, where Alderman Donaldson held an inquest. A verdict was rendered in accordance with the facts.

Uterine Diseases.

[From the Health Reporter.]

By this term we understand those diseases peculiar to females, such as obstructions, irregularities, cessations, derangements, immoderations, and disorders which are so common, and which exercise such a powerful influence in the destruction of female health.

It is all-important that the physician should be able to discriminate closely between these affections, as some of them are directly opposite in their nature, and each requires a specific treatment different from the other, a mistake in which would be dangerous and perhaps fatal.

That the urine in these disorders is of a peculiar character and quality, every physician of experience in this way knows, and can at once perceive the difference between these excesses and deficiencies.

And in treating these complaints especially, he must ever keep in mind these pathological differences, and prescribe such remedies as will check up the excessive or restore the diminished secretions; remove the morbid conditions, and reinvigorate the whole system.

The good effects of this kind of treatment will be observed in a very short time, and as a general thing the patient recovers entirely in a few weeks.

We have had hundreds of cases where the good effects of our remedies were observable in a very few weeks. The dull, languid expression of the eyes began to disapper, the dark-colored circle beneath them gradually lessened, the skin became more natural, the complexion improved, the appetite returned, the strength increased, the palpitation ceased, the nervousness wore off, the shortness of breath became less troublesome, the puffed face was no longer observed, and the disposition became less irritable and more cheerful, and the general health entirely restored.

Many of these changes are among the first signs of improvement after commencing the treatment.

Afflicted women, brighten your hopes and try our remedies.

Our daily practical observations enable us to determine the precise conditions of the system in every case, and to prescribe the appropriate remedy in every disease.

L. OLDSHUE, M. D.,
132 Grant street, Pittsburgh.

Extract from a Letter from Santa Croix.

* * * * We had wandered for many hours through tangled forests of Tropical shrubs and trees, some of them emitting a most delicious and invigorating odor, when we suddenly came upon a large and well cultivated plantation, in the centre of which were several buildings. Entering these we found them to be the "press houses," stills, &c., where the sugar cane is crushed for the manufacture of St. Croix Rum. Over 100 Coolies were at work, and the smell from the fermenting vats was very exhilarating and pleasant. We were shown through the entire establishment, and learned that all the Rum here produced was shipped to Messrs. P. H. Drake & Co., New York, to be made into their celebrated PLANTATION BITTERS. The peculiar good effects of this Rum—which is the purest and best in the world—are well known. Not a single case of Dyspepsia, Fever and Ague, Consumption, or any such disease can be found on this island, (except of invalids come here for their health, and they are almost always cured). Combined with Calisaya Bark, Cascarilla, and other important ingredients, this Rum becomes PLANTATION BITTERS; and surely no finer Tonic and general Family Remedy was ever seen. The combination of these bitters was first discovered here many years ago, and all the Natives swear by PLANTATION BITTERS, and say "there is nothing like it." Judging by the robust health of the witnesses, I am certain their testimony is true.

The Late J. M. Burchfield, Esq.

We yesterday briefly announced the death of our well known fellow citizen, James M. Burchfield, of the firm of J. M. Burchfield & Co., dry goods merchants, which took place at his residence, Sheffield street, Allegheny, on Sunday evening. The deceased came to Pittsburgh many years ago, and secured a place as salesman in the drygoods store of Samuel Semple, where he remained for several years, making an extended and numerous acquaintance. He subsequently engaged in the same capacity with Murphy & Bro., and in turn with Mr. W. R. Murphy, who took him into partnership, under the firm name of Murphy & Burchfield. The senior member of the firm retired and the deceased for many years conducted the business alone, at the corner of Fourth avenue and Market street, until he sold out to C. H. Love & Co. After a year's retiracy he again entered business on Market street, and at the time of his death had a first-class store on Sixth avenue. In his business dealings he was strictly honorable and upright, and none of our business men enjoy higher reputations for honesty and probity. He was an elder in Dr. Swift's Presbyterian Church for over eighteen years and Superintendent of the Sabbath School for six years. His funeral will take place this afternoon at two o'clock, from the First Presbyterian Church, Allegheny, where the scholars of the Sabbath School will assemble to pay, in common with other friends, the last sad tribute to his memory.

Went to Housekeeping.

Tim Finney, who not long since forsook single blessedness and joined the ranks of the Benedicts, went to housekeeping the other day. To do this, however, required some strategy on Tim's part, as he was short of funds. He managed in this wise: Ingratiating himself into the graces of Mrs. Catharine Smith, he succeeded in renting "apartments" from her, and also borrowing enough furniture to decorate the same. This method flourished well enough until the rent came due, when Tim suddenly got himself into difficulties by refusing to pay the rent or give up the room and furniture. In this quandary Mrs. Smith sought legal advice from Alderman Donaldson yesterday. That official brought Tim to terms, and he agreed to give up the apartments and pay the rent due, in consideration of which a charge of larceny as bailee which had been entered against him was not prosecuted.

Elegant Amusement.

The night school in the Ralston school house, Penn street, was the scene of an exciting episode a few evenings since. Jacob Richter and John Kramer, two youths about seventeen years of age, attend. During the course of the evening, Richter had occasion to move away from his seat, and upon returning sat down as usual: not, however, on the seat, but upon the point of a penknife, which Kramer had laid there. As a result, he received a severe and painful wound, which has since kept him in bed. Yesterday he was for the first time in four days enabled to move about, when he repaired to the office of Alderman Koenig and lodged information against his mischievous companion for malicious mischief. Warrant issued.

OFFICE OF CITY ENGINEER & SURVEYOR,
PITTSBURGH, Oct. 16, 1869.
NOTICE TO CONTRACTORS.—Sealed Proposals for the construction of a public sewer on DIAMOND ALLEY, from the Diamond to Decatur street, and for the grading, paving and curbing of Diamond alley, from the Diamond to Ferry street, and for grading, paving and curbing Twenty second street, from Penn street to ——, and for grading, paving and curbing Irwin alley, from Fortieth to Forty-second street, will be received at this office until SATURDAY, Oct. 23, 1869, at 2 P. M. No bids will be received unless made out on the proper blanks. Specifications and blanks for biding can be had at this office. The right is reserved to reject any and all bids.
oc17:93 H. J. MOORE, City Engineer.

PROPOSALS
Will be received at the Engineer's office of the PITTSBURGH AND CONNELLSVILLE RAILROAD COMPANY IN PITTSBURGH or CUMBERLAND, until the 1st of November, 1869, inclusive, for SUPPLYING THE CROSS TIES for the entire line of about 85 miles of this road from near Connellsville to near Cumberland. The length of each cross tie will be 8 feet between square ends. Thickness 7 inches, and flattened on two opposite sides to not less than 7 inches bearing surface, out of wind and clear of bark, which will be shaved off. Kind of timber, White Oak, Rock Oak or Chestnut, sound and free from wind shake or other defects. Places of delivery, immediately on the road, and not more than half a mile apart, where the ground will permit access and room for piling, which will be done in alternate cross layers of about 100 in each pile. Proposers who cannot deliver at the intervals named may state the place at which they would deliver, and quantities at each place. The number per mile will be 2,112, and whole number about 210,000, including those for side tracks. Timber to be cut when the sap is out, and delivery to be commenced on or before January 1st, 1870, and continued until all delivered; as follows, viz: For the first 10 miles from either end of the road near Connellsville or Cumberland, on or before May 1st, 1870, for each succeeding 10 miles toward the middle of the road one month later, or on the 1st of June, July, August and September, 1870, until the whole number are delivered. Monthly estimates of Cross Ties delivered on the road will be given, four-fifths of the contract price of which will be paid, and the remaining fifth at the completion of the contract.
